Speaker Madigan: "The House shall come to order. The Members shall be in their chairs. We ask the Members and our guests in the gallery to turn off laptop computers, pagers and cell phones. And we ask our guests in the gallery to rise and join us for the invocation and the Pledge of Allegiance. We shall be led in prayer today by Pastor Al Rennert with the Allenville Christian Church in... God has corrected me. All right. Pastor Rennert is with the Allenville Christian Church in Allenville, Illinois, which is close to Decatur. Okay. Pastor Rennert is the guest of Representative Flider."

Pastor Rennert: "Almighty, all holy, all merciful Father, God, we come humbly to Your throne this morning, first to praise and glorify You. For it is from You that all power on earth and in heaven emanates. It is from You that we receive our daily sustenance and even this next breath. It is from You that the complex order of this universe was founded. We thank and praise You as You are God of order and that we may participate in continuing and bestowing that order in this state. We thank You for the hardships even that have made us strong as well as Your blessings which we humbly accept. We thank You for this opportunity to pray forthrightly in this government chamber. Second, we lift up each one of these men and women who have set be... who You have set before us to serve us, guide us and act as our stewards of our resources. Some struggle as we speak, some bask in Your blessings, some do not know You, but You love them, Father, more than any of them can imagine. We

pray for a day when each will be held at Your bosom and will eat at Your table. We pray for their families and loved ones that after You they may serve their spouses, children, relatives and friends with heartfelt conversation, warm moments of affection and precious times of revelry in Your creation. Thirdly, we pray for those who are served in this chamber. Those constituents who have placed their trust and the wisdom of each of these Legislators, the voiceless as well as the powerful, the speechless as well as the eloquent, the outcast as well as a club member. May these men and women be humble servants of all people. Lastly, Father, we lift up those upon whom we have little or no direct affect, but who, nevertheless seek Your hand in their lives; victims of ignorance, war, tsunamis, disease, human cruelty and even personal foolishness. We ask that You use each of us even in a small way to offer Your love and comfort to those hurting souls, that our hands become Your hands, that our words are spoken as You would speak, that our ears and eyes listen with full attention and that we forgive as You forgive us daily. We ask these things in the name of Your Son, Jesus Christ. And all of God's children said, amen."

Speaker Madigan: "We shall be led in the Pledge of Allegiance by Representative Washington."

Washington - et al: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Right here in the State of Illinois made those Super Bowl rings and they're scheduled to do it again in 2006. Their company had a branch try working in another country. It came back to the United States because they liked the work... work ethic here in Illinois and we're really proud of the example that they set for that. One concluding comment I wanna make. We're proud that you're here. We're proud of every company that's being recognized and congratulations on your recognition by the Lincoln Foundation. Thank you."

Speaker Hannig: "The Gentleman from Tazewell, Representative Sommer."

Sommer: "Thank you, Mr. Speaker. It's my privilege to stand and recognize two of the award recipients today. I'm joined by my colleague and our colleague, Senator Dan Rutherford, who also represents these recipients. The first is... is from Pontiac, Senator Rutherford's hometown, the OSF-Saint James Hospital-John W. Albrecht Medical Center. Those of you who drive 55 to get here, as you pass the Pontiac exit a quarter mile to the west, you will see a brand new facility. This hospital is a true gem for rural

Speaker Hannig: "The Gentleman from Cook, Representative Burke."

Burke: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. House Bill 1391 very simply amends the Uniform Disposition of Unclaimed Property Act and the Bill deals with funds or stocks distributable in the course of demutualization, rehabilitation and related reorganization of an insurance company. Demutualization is the conversion of a mutual insurance company that is owned by its policyholders that is turned into stock company. While the insurance company continues to exist, the corporation's function and the nature of the ownership is altered. Basically, it permits the insurance companies to transfer unclaimed property to the control of the State Treasurer in a shorter period of time. And certainly, the State Treasurer is a proponent and the Illinois Insurance Association. And I'd be happy to answer any questions."

Speaker Hannig: "The Gentleman has moved for passage of House Bill 1391. This is on the Order of Short Debate. Does anyone stand in response? Then the question is, 'Shall this Bill pass?' All in favor vote 'aye'; opposed 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Okay. Have all voted who wish? Mr. Clerk, take the record. I guess you could call it a loophole that's been in the schools for a while. There has been a policy that allowed administrators or superintendents within a school district to sign contracts for pop machines and other things that the school received reimbursement for without running those contracts through the school board and without having some kind of means of accounting for the reimbursement that would be received from those contracts. This Bill will close that loophole and say that these contracts still can be bid in the way that they are now or however the school chooses to bid them, but that they will have to be approved by the school... by the school board. Clerk Mahoney: "House Bill 733, a Bill for an Act concerning schools. Third Reading of this House Bill."

Speaker Hannig: "Representative Delgado."

Delgado: "Thank you, Mr. Speaker and Members of the House. House Bill 733 will require to the State Board of Education to establish a goal that all school districts in the state have a wellness policy that's consistent with the Center for Disease Control recommendations and establishes an interagency working group made up of the Department of Public Health, the Department of Human Services and the State Board of Education to work on model policies. It creates the school wellness policy task force made up of representatives of various state agencies and entities concerned with the health and school-age children, provides that is not to be construed as a curricular mandate on schools. And that's a very important point. In addition, this is part of an overall plan that we... I've been working on in conjunction with the CLOCC organization to lower childhood obesity and to aid Illinois schools in establishing a federally mandated wellness program. Clerk Mahoney: "House Bill 3822, a Bill for an Act concerning education. Third Reading of this House Bill."

Speaker Hannig: "The Gentleman from Cook, Representative Colvin."

Colvin: "Yes. Thank you, Mr. Speaker. Thank you, Mr. Speaker. House Bill 3822 is basically a number of revisions to the early childhood education statutes. Really, it's cleanup language for a Bill dealing with early childhood grants, a piece of legislation that was passed a year ago. It basically codifies and helps clean up a lot of the language with respect to how a lot of the early childhood development grants are... are funded and how they're distributed in the State of Illinois. The Bill came as a result of the work from the Ounce of Prevention Fund. The Bill received unanimous support last year and it received unanimous support in committee a couple weeks ago. And I ask for your support. I'd be happy to answer any questions."

Speaker Hannig: "This is on the Order of Short Debate. And in response, Representative Eddy is recognized."

Eddy: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Hannig: "He indicates he'll yield."

Eddy: "Representative, I've had a couple of calls regarding this Bill and I wanna make sure we... we clear up a couple of misconceptions possibly that are out there. First... first of all, will this in any way affect existing distribution

of grant money for early childhood programs now receiving state grants?"

Colvin: "No."

Eddy: "Will this in any way change the way grants are prioritized by the State Board of Education as they look at new grant programs through the existing?"

Colvin: "Absolutely not, Representative."

Eddy: "Okay. Thank you very much. Mr. Speaker, to the Bill."

Speaker Hannig: "To the Bill."

Eddy: "There's... there's been some concern as to whether or not this would change any of the priorities or the way these grants are funded or existing grants. This legislation does not do that. It's a good Bill. And I would urge an 'aye' vote."

Speaker Hannig: "Okay. The Gentleman has spoken in favor of the Bill. Is there any further discussion? Then the question is, 'Shall this Bill pass?' All in favor vote 'aye'; opposed 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Representative Flowers, do you wish to be recorded? Representative Winters and Berrios, would you wish to be recorded? Representative Winters. Mr. Clerk, take the record. On this question, there are 113 voting 'yes' and 0 voting 'no'. And this Bill, having received a Constitutional Majority, is hereby declared passed. On page 30 of the Calendar is House Bill 4058. Mr. Clerk, read the Bill."

Clerk Mahoney: "House Bill 4058, a Bill for an Act concerning State Government. Third Reading of this House Bill."

Speaker Hannig: "The Lady from Kankakee, Representative Dugan."

Dugan: "Thank you, Speaker and Members of the House. House Bill 4058 addresses veterans' issues. And what it does simply is it now allows National Guardsmen and Reservists to be eligible for Veterans Home care. Up until this point, they had to have 20 years of service and there was a lot of different items that came into play and really, our National Guard and Reservists were not able to take advantage of the Veterans Home care. So, with the change in what's been happening lately, our... the Reservists and the National Guard people that serve do have the right to have that care in Veterans Home, if they do need it. So, that's all this Bill does is now allow them eligibility. I do wanna state though, that the Bill does specifically state that those that were in conflict would have first priority for Veterans Home care, but it does now allow all of them to be eligible. I'll answer any questions. And would appreciate an 'aye' vote."

Speaker Hannig: "This is on the Order of Short Debate. Does anyone stand in response? The Gentleman from Vermilion, Representative Black."

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Hannig: "She indicates she'll yield."

Black: "Representative, is Amendment #1 still on the Bill?"

Dugan: "Yes, it is. Amendment #1 is the Bill."

Black: "All right. Let me make sure I understand that because it was adopted on a partisan Roll Call. And if I understand the Amendment, a veteran of the war on terrorism who could be defined, in my mind, you correct me if I'm wrong, as someone who served in Afghanistan or Pakistan or in Special Ops anywhere that the Commander in Chief sent his or her unit would not be eligible, if I'm reading this correctly, for Illinois Veteran Nursing Home benefits. Is... is that a correct interpretation?"

Dugan: "No, it is not, Representative. I know that there was some confusion on that and the Veterans Administration put the Global War on Terrorism in this Bill. And it was decided because it specifically then talked about the Global War on Terrorism truly with the expansion requirements that we have listed in the Bill, it now includes everyone. It... The timeframe now includes everyone. It's not just the people in the Global War on Terrorism. It's anyone that served in peacetime duty, in active peacetime duty, so Somalia... Those types of things that also aren't listed in the Bill, that's because the Bill encompasses all of them. And so, even though there was some confusion because Global War on Terrorism was put in and taken out, we took it out because we're not listing every conflict, we're just listing serving in active duty and the timeframes cover everyone."

Black: "So, if I understood your explanation, there... there does not exist a clear definition of a veteran of the war on terrorism, correct?"

Dugan: "Correct. It includes everyone if they were called to active duty no matter what conflict it was."

Black: "Okay. So, with that clarification, then we are not excluding any honorably discharged veteran from being able to avail themselves of services in the Illinois veterans' homes, correct?"

Dugan: "That is correct, Representative."

Black: "In fact, now, we are including everyone. The correction that you made was, I don't think there are any veterans of the conflicts that you removed. What, the Spanish-American War and something else."

Dugan: "Correct, correct."

Black: "All right. So, this Bill is inclusive of any veteran, correct?"

Dugan: "Yes, it is."

Black: "Okay. And so, with that clarification then, it's my understanding that there are no veterans' groups in opposition: the Department of Veterans' Affairs has no opposition or concerns, the Legion, the VFW, the AMVETS. It's your understanding and for the record, that all veterans' groups are in support of this Bill."

Dugan: "Yes. And it was the Veterans Administration that initiated the Bill. That's who brought it to me to begin with, Representative."

Black: "Okay. Fine. Representative, thank you for clarifying... well, what concerned me. Than... and I appreciate your efforts. Thank you."

When the vision for the then new Department of Human Services was created, one-stop service was the goal of the Human Services system in our state. Such... realization of such a service is not possible without the data warehouse that we have at Public Aid and an expansion of that data warehouse. This Amendment would encourage the department to pursue the one-stop service. It would also create a commission composed of members of the executive branch as well as members to lay a plan and... and in effect, keep score on our progress for finally realizing the dream of one-stop service in the human services. I think it's a very, very important Amendment. And I would ask for your approval."

If Members would recall, a year ago the rates were raised on teachers insurance by \$4½ million and then the administration took that money for general revenues. I have many unhappy teachers and no doubt, you do as well. And that's the purpose of the Amendment. And I'd ask for its approval."

it costs the state more money. Last year we paid over \$3 million in late interest penalties; this year we are up to a hundred and fifty thousand already. We need to start the clock ticking for providers so the 60 days start and late interest will be paid to providers of this state. As my colleagues, you all have telephone calls in your district offices from providers in your district who are saying to you, 'we're not getting paid.' And you call the state agency and they say, 'well, we okayed the check'. Then you call the Comptroller's Office and they say, 'well, we didn't get the... the bill.' This legislation will make sure that these checks are... the payments are expedited. We cannot balance the budget on the backs of providers. This is an initiative of the Chicago Bar Association that brought the Bill to me, but it's in exact conformance with the principle that I talk about and I work... I worked with all of you on which is to try to encourage people with mental illness to receive community-based services instead of institutionalization. In this particular Bill, this would provide that the people who are brought into court with a potential for an involuntary hospitalization would be a lousy option of accepting a court order for community-based outpatient treatment instead of that voluntary or involuntary hospital admission. The Bill itself sets out standards and procedures for the person or the custodian. It's completely voluntary. It's subject to a court order. It has standards and protections built into it. I think

this is an important Bill. It's not going to pertain to everyone in this state because we know there's still a dearth of community-based programs for people with mental illness, but where it exists, this is a really important and good step to encouraging people with mental illness to get hooked up to the community-based programs and to avert hospitalization. And I seek your 'aye' vote."

What we don't do very well is to make the hook up and under... in this Bill, it would be all subject to court supervision, so the custodian would have to find somebody in the community that would be willing to work with the patient."

Parke: "Do you have any idea how many people you're talking about? Are you talkin' about..."

Hamos: "You know, I... I don't right off, I'm sorry."

subject to voluntary or involuntary hospitalizations where the state pays Medicaid. We would be able to have that information. We don't know about it for all other people out there who are not under the Medicaid program."

Parke: "Do you think it'd be a couple thousand statewide?"

Hamos: "That would be my guess."

Parke: "Okay. To the Bill. Ladies and Gentlemen, I... I think the Lady's idea has merit, but let me just remind everybody. For those of you who recently had Speaker Madigan's revenue meetings in your district, what did we hear from the community-based outreach people? What we heard was that under the color... current Governor's fee-for-service plan, that a good number of them may go out of business. That there is not enough money to provide the services that they need based on a fee-for-service. Now, well intended, the Lady's Bill who'll probably put in anywhere, I would imagine, anywhere from a thousand to 5 thousand more people in already understaffed, underfunded community-based organizations. Now, I think, unfortunately, this is a mandate on them and there's no money with it. So, I don't know. I'm probably gonna vote for the Lady's Bill, but I think we need to understand is that we are straining, straining our community-based organizations and everybody who attended the hearings around the State of Illinois heard from our community-based organizations talkin' about the disaster that's developed because the Governor has shifted to this fee-for-service program that does not have enough money in it. We are

already hearing about smaller ones going out of business. We will continue to lose community-based organizations because we are not funding them properly. We are not funding our Medicaid system properly. The... this Governor has not done what he's supposed to do in terms of the CEO of the State of this... of Illinois in terms of his obligation and responsibilities to these community-based organizations. This Lady has a Bill. It's a good Bill. It's a good idea. But we're gonna dump thousands more people on these... these community-based organizations that are understaffed, underfunded and we're gonna exacerbate a serious problem that this Body must address before we adjourn. Ladies and Gentlemen, we are headed towards a disaster, a meltdown in our community-based organizations in this state and I must say that this just exacerbates the problem. But if we're gonna pass this legislation and pass it on to these community-based organizations, we must find money to pass on to these community-based organizations."

Speaker Hannig: "This is on the Order of Short Debate. Representative Hamos opened, Representative Parke spoke in response. It looks like there's a few others that would like to speak on this Bill, so we'll remove it from Short Debate and then go to Representative Black."

concerned that the State Guardianship and Advocacy Commission are generally the guardians of many of these people and would then also be responsible to see to it that they... that the person or persons receive adequate outpatient treatment and yet, we don't hear from them. And, ya know, and I have a theory. I don't wanna say it on the mike. I have a theory why we don't hear from them. Something about, perhaps, micromanaging. But I know that department has been wracked, as all departments have, by budget cuts, retirements, layoffs. I guess my question to you and it's probably rhetorical, I don't know that anyone can answer it. Do we have the people in the proper agency in place to track to make sure these people are, in fact, getting the services that they not only need, but in many cases, they must have?"

Hamos: "Well, Representative Black, thank you for that question because I actually do really, strongly believe in the Guardianship Advocacy Commission and I can tell you that Representative Feigenholtz and I have done quite a bit of work with them in the last few years on even work... talking to them about how we could create a better system to provide more alternatives in the community. I also really agree with the previous speaker that we have a problem in not adequately funding our community-based programs, but I want to point out to the Members here is that, first of all, the community-based system is going to take these clients a few days or weeks after admission to a hospital... people are admitted to a hospital for short-term emer...

psychiatric emergencies. We need to have the backup in the community anyway. They're going to accept them. They need to be there. Second of all, this is a way to avert the hospitalization in the first place and I can tell you that a hospital bed costs a thousand dollars a day, a nursing home bed costs a hundred dollars a day and community-based supportive housing services cost even less than that. If we do the math and if we really had a system in place in the State of Illinois, we could make sure that people were... that we were accounting for the savings in not putting people into hospitals and then driving those dollars right back into the community. So, yes and no. Are the community-based programs there in all parts of the state? No, they're not. Do we need to fund them more adequately? Yes, we do. This Bill is not a mandate; it's completely voluntary. The Chicago Bar Association wrote this Bill just to create some legal guidance for the courts that they can avoid an involuntary or voluntary admission to a hospital by letting the patient and the custodian, let's say the Guardianship and Advocacy Commission, if they have the resources in place in the community, they can... the judge can order the person into those community-based facilities instead of into the hospital."

Black: "Now, I... And I don't think anyone fundamentally disagrees... By the way, Mr. Speaker, my question took 30 seconds, the answer took a minute... three and a half minutes, but whatever."

My only fear is, Representative, and I... you've tried to address it and I know there's no silver bullet. We are not making the investment in the services necessary to treat people on an outpatient basis. And I... I'm glad the Chicago Bar Association has stepped forward, but it's not the Chicago Bar Association who will treat the people in need of treatment. I... I just question whether the services are there and I'm... I'm glad to know that it's voluntary... that are so vital and necessary... I just... it seems to me there are an awful lot of gaps in the service provider network and that..."

Speaker Hannig: "Representative Black, could you bring your remarks to a close."

Black: "Thank you... thank you very much, Mr. Speaker. And I think you've... you've alluded to this and I'll listen to the rest of the debate. It's those service gaps that are somewhat frightening in this Bill. If somebody is not institutionalized and that certainly is not always the answer, but if there aren't the outpatient, quality outpatient services, then we may be setting ourselves up for a tragedy that no one... no one wants to occur. I... I appreciate your bringing the Bill forward and I will certainly listen with some interest to the debate."

Speaker Hannig: "Representative Mulligan."

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hannig: "She indicates she'll yield."

Mulligan: "Representative, not having seen this Bill before, I'm quickly running through it trying to figure out exactly where you're going. But the thing that threw up a flag to me, that I don't understand, is why would this have come through Executive Committee rather than either Human Services or Health Care or a law committee because it would have gotten a different kind of debate and there would be more people on the House Floor now that would know what's actually in your Bill and whether we believe it has merit that we want to vote for. So, rather than standing here having this discussion and running around trying to figure out where you're going with it, we would have known. So, why was the decision for this to go through Executive Committee? I don't get it."

Hamos: "Is that a question to me?"

Mulligan: "Yes."

Hamos: "Well, I do not know the mysteries of the Leadership either."

Mulligan: "Well, usually things that are sent through Executive Committee are sent through Executive and it looks like this was always your Bill. It wasn't a shell Bill that you got from the Leader, correct?"

Hamos: "Right."

Mulligan: "All right. So, then there'll be a reason why it went to Executive Committee first, but it's always your

Bill. So, I'm looking at it and I'm going, Executive Committee, that usually means there's something controversial about the Bill that needs work from a group that's gonna pass your Bill, you know, no matter what and I'm not real comfortable with that at this point."

Hamos: "Well, let me... let me give a different explanation as I understand it. This Bill was brought to me wi... by the Chicago Bar Association very late in the process and I think a number of Bills were being assigned to Executive Committee simply because the... the staff had not had adequate time to really analyze them and to send them to the right committees before the deadline. So, I really think it went to Executive only because it was a parking place, not only for these... this Bill, but for a lot of Bills that were assigned out the same way. And then, just because of the deadlines, it was released from Executive and get... came to the House Floor. I agree with you that this would have been a Bill to have had a conversation about in committee, but I think there's actually nothing at all controversial about it and no one is in opposition."

Mulligan: "All right. Then the second concern I have with the Bill is, it appears that some of these people may actually have to be resent... represented by Guardianship and Advocacy. Guardianship and Advocacy is under constraint right now. They have cut their budget several years in a row. They don't have enough lawyers and they don't have enough money to... to really do the job they need to do although they've been getting by admirably with advocates

from law schools and different people that have been helping them, but unfortunately because other supplementals have been tied up, they have not received the money that they need in order to be able to adequately represent people particularly on an emergency basis, because that's where they have the most problem is getting somebody out there. And this seems like a Bill that would cause more problems there without adequate money at that agency. We knew at the end of the budget year or the end of the discussion when we voted on a budget, that they would need a supplemental. We've known it all this time and the supplemental still is not forthcoming. So, has anybody asked for a fiscal note or decided what kind of a burden this would put on that particular agency?"

Hamos: "Well, again, Representative Mulligan, this is... I don't see that this would add to the workload of the Guardianship Advocacy Commission. They're already in court under this Bill. They're already standing there with the respondent, with the patient. And the only thing that happens under this Bill is that instead of directing the patient and agreeing to an order to send the patient to the hospital, it would go into community-based care, voluntary, agreed to and only if the programs in the community are there. So, that's not gonna be every place in the state. And again... and what's also written into this Bill is that the custodian is not held liable for... for mis... ya know, making a wrong judgment about this. So, it's... it's gonna take... it's going to be useful in some situations, not all. But

the Guardianship Advocacy Commission people would already be in court. This is more of a legal structure for the courts."

Mulligan: "So, what's the basic problem, you believe, this Bill solves?"

Hamos: "I believe that what the Chicago Bar working with Mark Heyrman and the Mental Health Association was try... this was actually his initiative. I... I should have mentioned that, too. Is I think they were trying to..."

Speaker Hannig: "Representative Mulligan, your time has expired. Why don't you finish Representative Hamos in answering her question."

Hamos: "Okay. I think that what they were trying to do was to create a... another option for the court instead of admission to a hospital and they wanted to create the standards under which that could happen."

Speaker Hannig: "Representative Feigenholtz."

Feigenholtz: "Thank you. To the Bill. Representative Mulligan and Black both have asked some very astute questions. First of all, the magical question of how Bills go to the Executive Committee and why. And I believe that the Sponsor has answered that, but I'd like to speak to the merits of this Bill. I know that Representative Black has worked long and hard on... on working on income retention issues for people who are in nursing homes, very often those are people living with mental illness. And there was a report that came out recently that said that we can't afford to do that. Well, what this Bill actually intends

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

to do, as I see it, is something that the Conference of Women Legislators has been working on for years, trying to appropriately evaluate somebody or at least give the court direction on how to appropriately evaluate them and put them in a setting that is appropriate for them that's going to cost the state as little money as possible. That is what this Bill does. And so, I stand in strong support of it. I'm sure now that Representative Mulligan has a better understanding of what it does. She... she, too, I hope will see that this is worth supporting. And I encourage everybody to give it an 'aye' vote."

Speaker Hannig: "So, we've had three speak in response and 1 in support. We need... we have room for two more under the rules of Standard Debate to speak in support. Representative Bellock, do you speak in support?"

Bellock: "Thank you very much, Mr. Speaker. Will the Speaker(sic-Sponsor) yield?"

Speaker Hannig: "She indicates she'll yield."

Bellock: "I just had a few questions, even though I'm going to support it just because I wanted to make sure because on our analysis there were no proponents from the mental health summit. So, you started to clarify that."

Hamos: "Again, this was brought to me actually by the Chicago Bar Association but I can tell you that Mark Heyr... they were working with Mark Heyrman and just yesterday he sent me an e-mail to thank me for supporting the Bill."

Bellock: "Oh, okay. So, they're in support. I just wanted to clarify, also, that in our analysis, which I think might be

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES

wrong, it talks about 'involuntary' admission into a mental health facility. I think they meant 'informal'?"

Hamos: "No, this would actually apply to situations in which there's a potential voluntary or involuntary admission to a hospital. But this would be a way to divert people from that as long as there is this alternative treatment plan in place."

Bellock: "But are you giving the discretion of switching somebody out of a mental health facility to the director of the facility or strictly to the court system?"

Hamos: "No..."

Bellock: "Because in our analysis it says, 'to the director of the mental health facility'."

Hamos: "Well, no. I think that what this Bill does is this is within... this is under a court order. So, this is at the point when the court must decide whether or not to move somebody to a hospital, to have an involuntary or voluntary admission to a hospital and they're standing in court. This would be a court-approved plan for alternative treatment."

Bellock: "Okay. Because in our analysis it says, 'creates a standard to govern the exercise of discretion by a facility director in determining whether to deny voluntary admission'."

Hamos: "Well, the... the beginning part of this Bill which amends a different section... amends a different section, takes the current law. The current law already says, 'a respondent may request admission as an informal or voluntary recipient

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

at any time prior to an adjudication that he is subject to involuntary admission'. And then it says, 'if the facility director approves such a request, the court may dismiss the pending proceedings'. Now, that's current law. This Bill would amend that part of the law as well. That's different than the rest of the Bill that I was talking about and would give some guidance to the facility director under what situations they would have to approve the request. So, it would go on to say..."

Bellock: "I guess my..."

Hamos: "...the facility director shall approve such a request unless the facility director determines that the respondent lacks the capacity to consent to informal or voluntary admission or that informal or voluntary admission is clinically inappropriate. The director shall not find that voluntary admission is clinically inappropriate in the absence of a documented history of the respondent's illness and treatment'. So, it gives some guidance to the facility director, but the rest of the Bill that I've been talking about really has to do with what the court is looking at as part of an agreed order for alternative treatment."

Bellock: "I'm... I'm fine with the court making the decision; my question was about the ability of a facility director to change a plan, especially of a person who is being committed involuntarily."

Hamos: "And... and again, I don't think... I think that... I'm just guessing right now. I have... This has not come up before. I'm guessing that what the mental health summit folks would

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

4/6/2005

say is that they're trying to give some guidance here, les... legislative guidance, under what situations the facility director would approve or not approve, because already it says, that the fac... if the facility directors have to approve. It's already part of the law without any of those standards and this would add some standards to go along with that."

Bellock: "Okay. Well, I'm in support of the Bill. I know that we need to keep as many people out of the hospitals as we can and into community settings. But I also strongly support the Governor giving more attention to the public policy of community settings, especially with a Bill like this, because we don't wanna take the people out of a mental health facility and not provide them services within the community which is so important and that's my main concern. Thank you."

Speaker Hannig: "And now, under the rules of Standard Debate, will Rep... we'll recognize Representative Leitch for five minutes and then we'll go to a Roll Call. Representative Leitch."

Leitch: "Thank... thank you. Will the Lady yield?"

Speaker Hannig: "She indicates she'll yield."

Leitch: "At what point does the psychiatrist enter into this? In other words, if you look at this and you read 'facility director', I'm not sure, perhaps I'm wrong, but are all facility directors psychiatrists? I'm... I'm sure they're not, as a matter of fact."

Hamos: "I'm sure they're not."

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

4/6/2005

Leitch: "So, what is the... Why would a psychiatrist not be involved in the decision?"

Hamos: "Again, just to clarify again. This Bill amends two different sections of the Mental Health and Developmental Disabilities Code. The one section that I think is the... the key component of this Bill has to do with court-ordered decisions, under court supervision. The second part of what I'm getting questions about, right now, takes in existing law and adds some standards. The existing law, Representative Leitch, already refers to facility directors approving these requests. I'm sure that the facility directors in both private and public hospitals allocate those decisions to psychiatrists, but the existing law refers to facility director."

Leitch: "Well, one of the problems that I've found in the course of working on this issue is the disparity between different counties with involuntary admission and with those court decisions. For example, the Guardian(sic-Guardianship) and Advocacy Commission and the court process in Winnebago County is very differently interpreted than it is in Peoria County. And I've learned subsequently throughout the state there are all these different interpretations that revolve around especially someone under the care of Guardian and Advocacy, that should as probably come as no shock to you there are many bureaucratic items that show up along the line. We've had people, for example, from Peoria who have not gone through the right steps to be taken to Singer in Rockford and then

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

4/6/2005

be told to come back to Peoria in order to get the... processed there. The two different pieces to an actual admission involving the psychiatrist and others are very complicated in that process and have to be done perfectly. So, my only concern about your Bill is that I don't thoroughly understand how this works from a logistical standpoint because I think there are a lot more complexities in the actual on the ground work in these situations than may be apparent by what either the association or the Chicago Bar Association knows. I mean, I'll support your Bill, but I'm very concerned about the implications of some of the details that may surface in the course of attempting to implement this Bill because it is a very convoluted system in some cases and widely and differently interpreted process in many cases. So, I'm very concerned about how this would work. I mean, the concept is a good concept, but there are a number of practical ramifications that I just would raise to your attention."

Hamos: "And I would be... I would be pleased to work with you, Representative Leitch, to clarify some of those issues. I don't believe that this Bill changes any existing procedures as to the voluntary or involuntary procedures. This creates a separate option for the courts to use in the case of agreed to voluntary alternative treatments."

Speaker Hannig: "Okay. Representative Hamos is recognized to close."

I think we would've all learned more about the existing procedures, but I think on the face of it, this conforms exactly to what all of the speakers have wanted to do generally as a theme which is to get, in the cases where appropriate, to keep people out of hospitals and into community-based treatment programs. And I seek your 'aye' vote."

They can take it to court, but the court there's a lot of expenses to that. Are they still opposed or have you done something to alleviate their concern?"

Jakobsson: "The Amendment that was agreed and passed out of the committee and then we amended it again here yesterday was one that came from working with the Illinois Association of Drainage Districts and they are in agreement with it now."

Black: "Representative, does this Bill come out of a... of a dispute between the City of Urbana and Wal-Mart? Is that the genesis of the Bill?"

Jakobsson: "I don't believe so, Representative."

Black: "All right. Because there was a lawsuit, I believe, filed about the drainage that Wal-Mart... that that huge expanse of asphalt might create in that particular corner of Urbana."

Jakobsson: "I don't believe so."

Black: "Okay."

Jakobsson: "I think this is something that the cities of Urbana and Champaign..."

Black: "All right."

Jakobsson: "...have been working together with."

Black: "The only concern that I had with the Bill and Representative Parke covered this, let me follow up just a little bit. I've been here long enough to see all of the errors we've made in storm water management. I... I... One of the first Bills I voted on down here and the people from Cook County and the suburbs can relate to this, I had never heard of it. We passed a Bill putting speed limits on

drainage water coming from developments in Cook that then would flow downstream and the damage that it did downstream might be significant, but the municipality that created the storm runoff said, well, gee, that's too bad. I guess my fear is that when you develop... and the threshold in this is very small, a town of 35 thousand people. If they develop a retail shopping center or an industrial complex on the outer fringe of that community, that alters natural drainage. And if you pave a lot of that, then you're going to put a lot of water in the drainage plain and you get out of the communities corporate boundary and the drainage tile and/or the drainage ditch may simply not be adequate to handle the amount of water and that creates downstream damage. I... I'm curious as to how the drainage districts and the municipalities have evidently worked this out. Wha... What's your understanding of where the liability might be?"

Jakobsson: "Representative, this, ya know, further amends that it provides that a municipality and a drainage district may enter into an agreement for the automatic detachment. So, this doesn't just, ya know, keep them outta..."

Black: "All right."

Jakobsson: "...the discussion, but they can enter into an agreement."

Black: "So, before any annexation could be completed by the municipality... as I was just talking with... with our staff. The drainage district has to agree, correct?"

Jakobsson: "That's my understanding."

Black: "Okay. So, I'm going to assume that the drainage district has looked into the ability to handle the increased runoff so that we don't get in to downstream complaints that, let's face it, Representative, you and I are gonna handle."

Jakobsson: "Ya know, the... whether there's this agree..., ya know, the disconnect or not, that drain off could be there. And so that's why we do have this agreement and that they'll work together."

Black: "Well, as you have seen in the City of Urbana and as I have seen in Vermilion County, drainage law in Illinois goes back decades if not more than a hundred years. And it's getting more and more of a problem as... as urban sprawl develops and alters historic drainage flow and of course, we're losing the grassland that slows the water down. It's becoming, in part of my district and part of your district, a... a headache. And I just wanna make sure we're not creating an additional headache that you and I will have to go to meetings and try to figure out how to solve."

Jakobsson: "Part... part of this is that when the municipalities have this agreement and they... and it's annexed to them, they will have the responsibility of taking care of that."

Black: "Okay. That... I think that's the key. I appreciate the Amendment and the work you've done on the Bill because as you know there's nothing more contentious than water showing up on someone's property and they come into your office and say, water's never been on my property before and I want you to straighten it out. I think this Bill

gives adequate protection for those in the unincorporated areas and I think that the responsibility because of your Amendment will fall upon the district..."

Black: "I think you've done a good job of making sure the responsibility rests with the entities involved to make certain they aren't creating more problems than they're solving. I... I appreciate the work you've done on the Bill."

just wanna be clear, so that as I continue to talk to my constituency I would have a good knowledge of the actual procedures."

Jefferson: "Yes, that's right."

Black: "What the Bill does now is to say, if I... if I tell my election authority I'm physically disabled, I no longer have to give them a timeline, am I totally and permanently disabled or am I just, ya know, like..."

Jefferson: "That's correct."

Black: "...like maybe Representative Flider needed help getting in the booth on his crutches. Why... why did the election authorities wanna remove any reference? I mean, I... I can see somebody abusing this in every election just to say, well, ya know, I need a little help and I... I'm disabled, ya know. And they may not be disabled at all. Why do they wanna remove the... the existing requirement that you have to show some indication that you're permanently disabled in order to get voting assistance?"

Jefferson: "Well, because of what you just asked, Representative. All people sometimes can be disabled, but it doesn't have to be a permanent disability. At that particular time, they've got proof that they are disabled and all they have to do is show that to the individual that they're requesting assistance from. It might not be a permanent disability so the next time when they come into

Black: "There won't be any notation on that individual's voter registration card will there?"

Jefferson: "No."

Black: "That... that the voter is physically disabled?"

Jefferson: "They would have something from their physician..."

Black: "Okay."

Jefferson: "...that would say that they're temporarily disabled at that point."

Black: "All right. So, that accommodations could be made for them to vote, right?"

Jefferson: "Exactly."

Black: "All... all right. Fine. Thank you very much..."

Jefferson: "Thank you."

Millner: "Yes. In fact, I'll read the language directly from the Bill if you think it may help."

Franks: "Thank you."

with the requirements enumerated in the Peace Officer Firearm Training Act for retired law enforcement officers qualified under Federal Law to carry the weapon."

Franks: "So, what we're doing is bringing this in line with the Federal Law, as I understood it?"

Millner: "Yes, that's correct. And what we'd like to do... There's agencies throughout the state that have their own qualification courses. This would kinda unify it under the training board and they may put together a course. It allows them to do that."

Franks: "We're not allowing more people to be able to conceal and carry, are we?"

Millner: "No. The goal is to certify those officers who wish to participate in this particular program by having uniformity across the state. And this would allow... Currently, the training standards board is not allowed to do it, but they can at this point."

Franks: "Thank you very much."

Millner: "Thank you."

Speaker Hannig: "There seems to be a little interest, Representative Millner, so we'll move this to Standard Debate so that Rep... so a few others could ask questions. Representative McCarthy."

Millner: "No. They have to be... according to the Bill and the language, is that the training board would certify, but they have to be certified. In other words, if they go through that particular course, they have to complete it. So, age is not a factor. But if they don't..."

McCarthy: "But would it..."

Millner: "...and also in this Bill, which we don't have now, it would be an annual certification. So, annually they would have to do it and if they can't do it because of whatever reason, whether it's their age or their physical condition or whatever it may be..."

McCarthy: "Maybe... But is it your intent by the legislation to put some age limit in there, say, retired officers that are 75 years or older shouldn't have a gun."

Millner: "No, not at all. Because that would be... at that particular age, typically, they're not gonna be able to qualify and they wouldn't be able to carry a weapon."

McCarthy: "So, even a person like my father who's a retired Chicago policeman, he just turned 86, he could go and..."

Millner: "If he could..."

McCarthy: "...pass this training if he wanted to."

Millner: "If he could pass the muster of this, yes, he could. I don't wanna age discriminate."

McCarthy: "So, what is the real intent of this Bill then and why... why do we need this?"

Millner: "The... the intent..."

McCarthy: "I mean, we did this with the Federal Law and kinda grandfathered these people in, correct?"

STATE OF ILLINOIS

Millner: "Yeah. But well, the reason is 'cause there's so many different agencies that have their own programs and every program's different from each other. This would provide uniformity throughout the state, number one and number two; it'll mandate an annual qualification."

McCarthy: "So, is it... is it your intent that this is actually more control instead of..."

Millner: "It's my belief..."

McCarthy: "...in addition to the... and in addition to the federal..."

Millner: "It... it... it's my belief that uniformity brings more control and better control, more quality to the state. And it would be up to the training board to decide whether or not they can do that. This is a 'may' language. It allows them to provide this particular qualification course for law enforcement throughout the state."

McCarthy: "All right. Thank you."

Speaker Hannig: "Representative Osterman."

Osterman: "Osterman, Representative Hannig. Thank you. Will the Sponsor yield? Representative Millner, a couple questions. This is an initiative of the Illinois Chiefs of Police?"

Millner: "Yes, it is."

Osterman: "Is there any opposition to the Bill?"

Millner: "On our analysis the opposition is a... opposed by the Illinois Coalition Against Handgun Violence."

STATE OF ILLINOIS

Millner: "The definition is a qualified officer... I mean, this is the federal law now that has been passed; it's a law of the land. That we're not changing at all."

Osterman: "I know, but my question is, with peace officers, is that a Cook County sheriff, is that a University of Illinois security officer..."

Millner: "Let me... let me... let me read these to you so you got an idea. I'll... I'll read it from... Representative Osterman, let me read from the Bill. 'A peace officer is any person who by virtue of his office or public employment is vested by law with the primary duty to maintain public order or to make arrests for offenses whether that duty extends to all offenses or is limited to a specific offense and who is employed in such capacity by any county or municipality or retired law enforcement officer qualified under the Federal Law to carry a concealed weapon.'"

Osterman: "Okay. Your board then is gonna come up with the requirements in Illinois by which those retired officers could be able to conceal and carry in the State of Illinois? And your Bill, I mean..."

Millner: "It must... it must follow Federal Law."

Osterman: "Okay. My question though is, underlying that is, your Bill as drafted now, if this passed and signed by the Governor, would give these retired law enforcement officers the ability that they do not have today to conceal and carry a firearm?"

Millner: "I'm not sure I understand what you mean by that 'cause today there are... For example, Rockford has a

program, I believe; Waukegan has a program; Naperville has a program. Various municipalities throughout the State of Illinois have different programs, but they're not uniform, they're not consistent and I... frankly, I think it's..."

Osterman: "I appreciate that..."

Millner: "Yeah."

Osterman: "...and I... I... uniformity in that is not my question. I... I think that's a good thing, uniformity in laws. The question is, though, does your Bill give retired law enforcement officers or peace officers, under the definition you described, does that give them the ability to carry a concealed firearm?"

Millner: "Yes, they can currently do that now under Federal Law."

Osterman: "So, a retired Chicago police officer under Federal Law can have a concealed and carry a firearm?"

Millner: "Well, I believe so, but it depends."

Osterman: "That's a big..."

Millner: "It's a matter of opinion."

Osterman: "Can you repeat that?"

Millner: "Yeah. I think it's a matter of opinion. Some would say 'yes'; some would say 'no'. But the law is clear. The Federal Law is clear that they can."

Osterman: "When did that Federal Law go into effect?"

Millner: "This last year."

Osterman: "And was that passed as a individual piece of legislation or was that, as we frequently see and you've

seen and I've seen, part of an omnibus budget Bill or something else?"

Millner: "You know... It was a stand-alone Bill."

Osterman: "Okay. Representative Millner, I have a lot of respect for you coming from your background, but also your work here on gun control and on a lot of issues and I think that that's a critical, critical question which your staff is telling you, you believe is to be true. I think others probably wanna chime in, if it is true or not. Allowing retired law enforcement officers the ability to have a concealed firearm I think a lot of people on this floor will have a lot of opinions about. I think..."

Millner: "But... but currently, as I said, there are numerous agencies throughout the state that certify and qualify, so, ya know, and..."

Osterman: "But what you're do... your Bill is doing..."

Millner: "And... and many officers who aren't certified and qualify apparently are carrying it based on the Federal Law. This will mandate... We... It gives us the opportunity, in this chamber, to mandate that those officers be trained. It mandates that not only are they trained, but they are trained annually and certified to do it. Other than that, we have this willy-nilly process here which needs, I think, to be controlled."

Osterman: "Have municipalities tried it themselves? Has... has, ya know, Schaumburg, has Chicago, has Coal City, have they implemented their own rules that interpreted the Federal Law?"

Millner: "Some have and some haven't. Those particular communities I don't have the answer to, but many of the communities have set their own standards and their own rules for it which I think this is beyond that. It should be a state mandated, not mandated, but a state certified situation so if those people can't qualify, as the one Rep..."

Speaker Hannig: "Representative, your... your time has expired. Could you bring your remarks to a close?"

Osterman: "Let me just, if I may... if I may close. Representative Millner, again, I appreciate trying to have a uniform issue. I think it's vague and everyone should pay attention to this legislation. Oftentimes, the Federal Government implements rules and then advocates say, it's the Federal Law and that's the way it should be. This law and others can ask this question, will allow retired law enforcement officers, Cook County, people that are public peace officers, the ability to have a conceal and carry weapon. That is large public debate that I think each person should know how they're gonna vote and if they wanna have that. I appreciate the uniformity aspect, but this Bill ultimately would give those people that some would say don't have the ability now, the ability to carry a concealed weapon in the State of Illinois. And I will be voting 'no' on this Bill."

Speaker Hannig: "So, now under the rules of Standard Debate, Representative Franks, McCarthy and Osterman have spoke in

response. We're looking for people to speak in support.  
Representative Saviano."

the Sponsor."

Speaker Hannig: "Okay. The Gentleman will yield."

Saviano: "Currently, the Illinois State Police has implemented  
a program to address this situation. In no way does this  
impede on what the State Police have been doing?"

Millner: "No. State Police has a program in effect only for  
their members."

Saviano: "Thank you very much."

Speaker Hannig: "Okay. Okay. We... Under... again, under the  
rules of Standard Debate, there's room for two additional  
proponents to speak. Representative Sacia."

Sacia: "Thank you, Mr. Speaker, Ladies and Gentlemen of the  
House. I stand in strong support of the Gentleman's  
legislation. In deference to what Representative Osterman  
said earlier and I think he understands where  
Representative Millner is going with this Bill. And the  
very important part here for all of us to understand is  
Congress has now authorized all of us who are retired law  
enforcement officers to carry, if certain criteria are met.  
Representative Millner's legislation is doing the one  
important thing we must have and that is provide  
uniformity. I think that's imperative that we have a  
training system in place. I applaud him for bringing this  
legislation forward. This simply improves the federal  
legislation that is already in place and in no way takes

from it. I urge all of us to give a strong 'aye' vote.  
Thank you."

Speaker Hannig: "So, now under the rules of Standard Debate,  
we've had two speak in favor and three speak in response.  
Does anyone else wish to speak in response? Representative  
Molaro."

Molaro: "I... I... I haven't been here long enough."

Speaker Hannig: "In support?"

Molaro: "I'm for the Bill. So, I don't know what that means."

Speaker Hannig: "In support?"

Molaro: "Yes."

Speaker Hannig: "So, you're recognized in support."

Molaro: "All right. Thank you. Ya know, I'm in..."

Speaker Hannig: "Excuse me. That was my... my error."

Molaro: "All right."

Speaker Hannig: "Representative Molaro."

Molaro: "Thank you, Mr. Speaker. The reason I'm in support of  
this Bill. I'm on the same side as Representative  
Osterman. I... I read the Bill itself. I gotta tell ya, I  
don't... in reading of the Bill, I don't think it says that  
Illinois supports or doesn't support it. It just says that  
if, in fact under the federal rules, you are allowed to  
carry concealed weapons, that now you're gonna be trained  
to do so. I don't see this Bill saying that we... we, as a  
state, are saying you should carry concealed weapons. I  
read the Bill; it doesn't say that. So, anything that  
would train these fellows. So, I am in support of this  
Bill and it makes a lot of sense to me even though I'm sort

STATE OF ILLINOIS

of a gun control advocate and I have a Bill coming up later. So, remember that, Representative Millner. But one question, real quick and I know you'll yield to that so the Speaker doesn't have to tell us. Is that, when you do these trainings, I'm not so much worried about whether they can shoot straight or whether their response time is 'cause remember they're gonna be old guys and old ladies. They're not gonna know where to shoot or how to shoot. So, I think it's a little silly that we allow 'em to do this, but is there at least gonna be training for psychological matters? 'Cause as you reach 68, 70, 75 years old, we all know the motor skills go down, but we also have a different way of looking at things and responses. So, this training we're talking about, is it gonna include psychological or any kind of mental training that you're aware of?"

Millner: "Yes. Could..."

Molaro: "You could respond. You don't need his permission."

Millner: "Yes."

Speaker Hannig: "Yeah. The Sponsor will yield."

Millner: "There... there's no psychological testing involved in this nor is there in the Federal Law. However, you have to remember that most every law enforcement officers that had been hired had gone through the psychological testing services and typically that doesn't change throughout one's life."

Molaro: "Well, I..."

Millner: "It's the same basic... basic foundation level."

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES

Molaro: "I know that. But... but seriously, you should think about something like that 'cause I was... Ya know, I passed the bar 20-some years ago; I've forgotten 90 percent of that stuff. So, the point would be that, I think as these as these guys get a little older and they get these guns after they retire, we should look at some psychological training. But this is a start and I think it's a good Bill. Thank you."

Millner: "Thank you."

Speaker Hannig: "So, under the rules of Standard Debate, we've now had three in favor, three in opposition. Representative Osterman, you've spoken during debate. For what reason do you now rise?"

Osterman: "My name was used in debate and I'd like to make a remark."

Speaker Hannig: "Okay. We'll... we'll allow it."

Osterman: "I'll be brief 'cause I know there's a lot of Bills up today. A prev... The Federal Law and Representative Millner, I have a question. Under the Federal Law that was passed by Congress, which you referenced, can a peace officer carry a firearm on an airplane?"

Millner: "No, I don't believe so. I mean, if it's their own private plane..."

Osterman: "You may wanna check your..."

Millner: "...they probably could, but... but the airport would not allow that to happen."

officers, under the Federal Act that they did, can carry firearms..."

Millner: "Well, I can tell you that as a police officer I cannot carry a gun on an airplane, cannot. And that this would not add any benefits to a retired officer to do that."

Osterman: "You're referencing, though, the police... you're referencing the Federal Law. And my point to you is that you may wanna have staff check 'cause my understanding is that under that Act Congress gave the ability for retired police officers the ability to carry a firearm on a plane. So, my point in that is to say this..."

Millner: "That's not accurate. You cannot carry..."

Osterman: "Okay."

Millner: "A federal officer can, but any local officer can't do that."

Osterman: "Again, that's an interpretation issue and I don't wanna cloud it. I'm saying that you should check that and I will check... I'll recheck it, but my understanding is that is the case. And my point in that is to say that a lot of times when we have these Federal Laws that are passed, oftentimes not in the light of day, things like that are slept(sic-slipped) in. And I... again, I go back to the issue about the ability for conceal and carry for retired officers. I think that's an issue that we need clarity on as this moves forward."

Millner: "Thank you."

Speaker Hannig: "Representative Millner to close."

Millner: "Thank you, Mr. Speaker. And thank you for the debate and some of the questions that were brought forward. It helps clarify some of the issues. But, ya know, there are concealed and carry for just general citizens in over 40 states in this country. What I'm trying to do here is not create concealed carry, I'm trying to get uniformity, I'm trying to get training and I want that uniform training for safety reasons for these officers who can carry these weapons already by Federal Law. I think we need that safety component. We need that training component... component and this would really, really go far in adding to that. And I would certainly appreciate an 'aye' vote. And thank you very much."

Speaker Hannig: "Representative Feigenholtz, for what reason do you rise?"

Feigenholtz: "I... Will the Sponsor yield?"

Speaker Hannig: "We've already closed. I thought maybe you had a parliamentary inquiry or something."

Feigenholtz: "I... I have a parliamentary question then. Does this Bill preempt Home Rule?"

Speaker Hannig: "We'll get a ruling from the parliamentarian. So, Representative Feigenholtz, in response to your inquiry. I'm advised by the parliamentarian that it does not preempt Home Rule and thereby requires 60 votes. So, Representative Millner has closed. And so the question is, 'Shall this Bill pass?' All in favor vote 'aye'; opposed 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish?"

Representative Granberg, do you wish to be recorded? Mr. Clerk, take the record. On this question, there are 88 voting 'yes' and 20 voting 'no', 6 voting 'present'. And this Bill, having received a Constitutional Majority, is hereby declared passed. Representative Mulligan has a Bill on page 28 of the Calendar, House Bill 2492. Representative Mulligan, do you wish us to read that Bill? 2492. Mr. Clerk, read the Bill."

Clerk Mahoney: "House Bill 2492, a Bill for an Act concerning health. Third Reading of this House Bill."

Speaker Hannig: "The Lady from Cook, Representative Mulligan."

Mulligan: "Thank you, Mr. Speaker, Members of the General Assembly. House Bill 2492 creates the Ultrasound Administration Act. It requires a person that issues an order or a referral for an ultrasound upon a pregnant woman to be licensed to practice medicine in all of its branches, licensed as an advanced practice nurse or licensed as a certified nurse midwife or as a physician's assistant and provides that an order or referral for the administration of an ultrasound shall not be issued for entertainment purposes, provides that any person not licensed to issue an order or a referral pursuant to the Act who administers an ultrasound upon a pregnant woman without an order for referral is guilty of a Class A misdemeanor."

Speaker Hannig: "The Lady has moved for the passage of House Bill 2492. This is on the Order of Short Debate. And recognized in response is Representative Flider."

Speaker Hannig: "She indicates she'll yield."

Flider: "Representative, our analysis shows that the... there... there may be a threshold under which high frequency waves are not safe. And I think many people whether here and other parents have had ultrasounds conducted and to my knowledge I was never made aware by anybody that high frequency ultrasound is not safe. How... What is the threshold for not safe?"

Mulligan: "Actually, the FDA and the American Institute of Ultrasound Medicine have warned against the use of ultrasound on pregnant women for nonmedical purposes and this is because although ultrasounds are conducted by technicians with medical training and are considered safe, exposure in a nonmedical setting may cause a risk. The object is not to have it done for a long time which is what's happening in some of the kiosks to people that are, say, given ultrasound video which can be for 15 minutes to a half hour and then they charge you accordingly, rather than doing it for medical purposes. Ultrasounds have some affect on nerve and muscle and so they're not quite sure. So, for men... for reason of diagnosis or for a short period of time, it should be all right, but we think that not for a long period of time and that's what's happening right now."

Flider: "Do you know when the regulation took effect or when... when this information was made available?"

Mulligan: "Well, it's been out there for quite some time and I think the reason that it wasn't as big a discussion is

because we weren't having this new little industry pop up that says, get a video of your baby before they're born. So, it's not like getting a wedding video. You're actually doing a prolonged and in some instances, 3-D and in color and they're not quite sure what it will do. So, I would think that if you're not sure, it oughta be done for medical purposes not for fun and entertainment or profit."

Flider: "I would agree with you. I thank you. Was there a particular organization who recommended this legislation?"

Mulligan: "Planned Parenthood has worked with me on it and actually the Medical Society, Illinois State Medical Society, they both worked on this Bill."

Flider: "Okay. Thank you very much."

Speaker Hannig: "Okay. Representative Mulligan, it seems like there's some interest in your Bill, so we'll move it to the Order of Standard Debate. Representative Hultgren."

Hultgren: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hannig: "She indicates she'll yield."

Hultgren: "A quick question. Does this just apply to those entertainment type purposes? I mean, it seems like it goes far beyond that where it makes it a misdemeanor for anyone other than a doctor or nurse to perform an ultrasound. Is this truly just limited just to those who are taking pictures, ya know, for a baby book? Is that all this is limited to?"

Mulligan: "No. What it does, Representative, is it makes sure that the way ultrasounds are performed on pregnant women are monitored by the state so that they're done in a manner

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

4/6/2005

that would be medically advisable rather than as just not medically advisable."

Hultgren: "Here's my concern, Representative. I know there's quite a few different crisis pregnancy centers around the state that have used ultrasound to be able to inform women of the development of their baby inside of them to be able to show them the embryo, the fetus, as it's growing. And my concern is, would they be affected? Is this a requiring that has to be in a... I'm not sure. I think that's usually a doctor that performs that, but I don't know if it's necessarily, ya know, referred by a hospital or anything like that. Would that be stopped? Is that excluded in this?"

Mulligan: "Representative, I'm not totally familiar with what you're talking about although this question did come up in committee. My answer to that question is, any woman that is having an ultrasound, any pregnant woman that's having an ultrasound, oughta have an order from a doctor saying that it's necessary. So, I would presume that the agencies that you're talking about are people that are getting referrals from doctors to do ultrasounds not just doing ultrasounds."

Hultgren: "Well, I don't know if... if that is and that's, I guess, some research... Ya know, I wasn't in committee, I guess, when this came up. It's a concern that I have. So, tell me again, the main purpose of this is that you think ultrasounds are dangerous."

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

4/6/2005

Mulligan: "The main purpose is that long exposure to those sound waves may be dangerous, we don't know that. Because it makes a difference and it's used in other areas such as rehabbing for muscles. It's used for other areas other than just doing ultrasound on pregnant women and this only regulates it for pregnant women. It has nothing to do with using it in any other way. Because it does have an impact in muscles and nerves, we don't know what it does. So, the object is not to have prolonged exposure to it for any other reason than what is medically necessary and usually that's to determine if the fetus is developing normal or there's some issue that you have to take care of not... Many people don't even even have them when they're pregnant."

Hultgren: "What is... what's prolonged exposure?"

Mulligan: "Well, I think the..."

Hultgren: "Is that defined in the Bill?"

Mulligan: "I think the shortest length of time that you would need, that's why you need someone that is able to do this medically. The shortest length of time it would be for you to get the information that it was requested for. And certainly, if you saw any of the ads or you go on the Internet and you see the ads for what's happening in kiosks, they charge money for a 15-minute video tape of an ultrasound up to a half an hour and it's not cheap. But a half an hour just to take a video is totally incorrect and I... I don't know what issue that you have with other people doing it, but I would presume that, if they're doing it,

the woman would have an order from a doctor for the procedure."

Hultgren: "So, basically, you're saying this Bill makes it that you could not have an ultrasound unless it's prescribed by a doctor?"

Mulligan: "Right or by someone under a doctor's auspices such as an advanced practice nurse, a physician's assistant, a certified nurse midwife. It would have to be because it was medically necessary."

Hultgren: "What... what studies have been used to show the dangers of ultrasound? Are those available or are those referenced in your Bill?"

Mulligan: "Well, both the Food and Drug Administration and the American Institute of Ultrasound Medicine have warned against the use of ultrasound on pregnant women for nonmedical purposes. I know a number of years ago, when this first came out, there was some concern that in problem pregnancies whether an ultrasound might cause a miscarriage or not. I think we... we've gone by that in the way they... they administer them and that it's in lower doses. I don't think that if you're not a technician that you should be doing this, because you don't know. The... the other issue that..."

I think since there are so many strange things that are happening, particularly in areas of cancer, earlier for children, more autism, things like that, that we don't know exactly where they come from, that I don't think this is a mistake to say that something that has an affect that may alter the fetus, both neurologically or with their muscles, should be regulated by the state."

Speaker Hannig: "Rep..."

Mulligan: "It's not in... in effect to keep anybody from doing it. All it's saying is you need a medical order."

Speaker Hannig: "Representative Gordon."

Gordon: "Thank... thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hannig: "She indicates she'll yield."

Gordon: "Thank you. Representative, I'm... I'm sorry. You may have answered the question when the previous speaker was talking to you, but I couldn't hear the end of it. But I guess, just from the things I've written down and I'm truly, honestly wanna know the answer. I don't mean to sound flip. But if... you said it... that we don't know what it does, but it... but it has an affect on the neurological and muscular development of the child. So, does it have an affect or just based on what we know what it does with muscles it may have an affect?"

Mulligan: "The Food and Drug Administration and the American Institute of Ultrasound have warned against the use of

ultrasound on pregnant women for nonmedical purposes. Ultrasound is an energy which can affect tissue development. This energy should be respected and used cautiously. Therefore..."

Gordon: "I'm sorry. I can't hear, Mr. Speaker."

Mulligan: "The Food and Drug Administration and the American Institute for Ultrasound Medicine have warned against the use of ultrasound on pregnant women for nonmedical purposes. The ultrasound is energy that can affect tissue development. The energy should be respected and used cautiously. In a report from the FDA magazine says, as compelling as a sneak previews may be, the FDA is warning women about the potential hazards of getting keepsake videos. The agency is also warning companies against creating them for entertainment purposes. While ultrasound has been around for many years, expectant women and their families need to know the long... that the long-term effects of repeated ultrasound exposures on fetuses are not fully known. In the light of all that remains unknown, having a prenatal ultrasound for nonmedical reasons is not a good idea."

Gordon: "Okay. Do we know... Since they're talking about the potential and it can affect the tissue, but do we know has any child been born with problems because of this or they're saying that it's possible?"

Mulligan: "I think they're saying it's possible, we don't know."

Gordon: "Okay."

Speaker Hannig: "I've been using the timer for everyone all day."

Hultgren: "Sorry, I didn't see it."

Speaker Hannig: "It's okay."

Hultgren: "To the Bill. I think this is a very disconcerting Bill to be... have this pushed through as something just thrown toge... as a minor issue. It absolutely is not and I want to encourage every Member to be very wary of this. This is a very serious... this is making it a criminal charge for someone to do an ultrasound with really no backing up if there's dangers or not. It's alleged dangers. It's some reports that are not defined what those reports are. I encourage everyone to vote 'no' on this Bill until we can do some more research on it. If we can define this and put parameters in of saying, sure, ya know, it's a crime if you put it... extend it over 30 minutes of exposure, then it

becomes dangerous. But this is literally, if someone does a two minute ultrasound but doesn't have a doctor's referral. I encourage everyone here to vote 'no' on this legislation."

Speaker Hannig: "Representative Mulligan is recognized to close."

Mulligan: "Sorry? To close now?"

Speaker Hannig: "To close, Repre..."

Mulligan: "Thank you, Mr. Speaker. I urge everyone to take a good look at this Bill. Actually, I think Representative Hultgren, who spoke before, is wrong. This is not an issue of just taking an ultrasound to use for political purposes or for purposes to sway someone's opinion on something. This is a medical procedure that needs to be done carefully with a doctor's order. I think that if anyone is doing it for profit or for any kind of other political reasons that's not the reason why you do a test that may have some change in the ultimate growth of the fetus into a normal, healthy child. I think this is a very good reason to vote 'aye'. I would encourage your 'aye' vote. I would appreciate your support."

Speaker Hannig: "The Lady has moved for passage of House Bill 2492. And now the question is, 'Shall this Bill pass?' All in favor vote 'aye'; opposed 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? Have

Clerk Mahoney: "House Bill 1261, a Bill for an Act concerning State Government. Third Reading of this House Bill."

Speaker Hannig: "Representative McGuire."

McGuire: "Thank you, Mr. Speaker. Excuse me. Ladies and Gentlemen of the House, I have House Bill 1261. And what 1261 is a... it's a checkoff for the... to amend the Illinois Act on Aging and the State Finance Act. And it creates the Senior Meal Delivery Fund and as amended, as we mentioned yesterday, provides that the department must disperse monies in accordance with the priority service plan developed under Section 25 of the Older Adult Services Act. So, it's not a very controversial Bill. I had amended the Bill, as I said, yesterday at the request of AARP and I think the only one that probably stands in opposition is the Department of Revenue, but that's merely because it's a checkoff. And I would appreciate your 'aye' vote."

Speaker Hannig: "This Bill's on the Order of Short Debate. Does anyone stand in opposition? Then the question is, 'Shall this Bill pass?' All in favor vote 'aye'; opposed 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk, take the record. On this question, there are 113 voting 'yes' and 0 voting 'no'. And this Bill, having received a Constitutional Majority, is hereby declared passed. Representative McGuire, you also have House Bill 3755 that's on page 30 of the Calendar. Mr. Clerk, would you read the Bill."

Clerk Mahoney: "House Bill 3755, a Bill for an Act concerning regulation. Third Reading of this House Bill."

Speaker Hannig: "Representative McGuire."

McGuire: "Thank you, again, Mr. Speaker. Ladies and Gentlemen of the House, I have House Bill 3755 and it, again, is not a controversial Bill. This Bill is an initiative of JULIE, which is the Joint Utility Locating Information for Excavators and they are located in my hometown of Joliet and they have asked me to sponsor this Bill. JULIE is a one-call, statewide, not-for-profit corporation that essentially is a message handling service that operates 24 hours a day, 365 days a year. The change they are making is consistent with JULIE's business practices for over 30... over 30 years. What the Bill does it defines the term 'open cut utility locate' as a method of locating underground utilities that requires excavation by the owner, operator or agent of the underground facility and approves its use during emergency excavations. It also clarifies the specific use of colored flags, stakes and marks to identify different types of underground facilities. This legislation was proposed by JULIE, the Joint Utility Locating Information for Excavators. I would appreciate your 'aye' vote."

Speaker Hannig: "This Bill's on the Order of Short Debate. Does anyone stand in opposition? Then the question is, 'Shall this Bill pass?' All in favor vote 'aye'; opposed 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk,

take the record. On this question, there are 113 voting 'yes' and 0 voting 'no'. And this Bill, having received a Constitutional Majority, is hereby declared passed. Mr. Clerk, read House Bill 1585 on the Order of Second Reading."

Clerk Mahoney: "House Bill 1585, a Bill for an Act concerning safety. Second Reading of this House Bill. No Committee Amendments. No Floor Amendments have been approved for consideration. No Motions filed."

Speaker Hannig: "Third Reading. On page 30 of the Calendar, Representative Molaro has House Bill 3849. Mr. Clerk, would you read the Bill."

Clerk Mahoney: "House Bill 3849, a Bill for an Act concerning firearms. Third Reading of this House Bill."

Speaker Hannig: "The Gentleman from Cook, Representative Molaro."

Molaro: "Thank you, Mr. Speaker. This seems to me to be commonsense legislation that I think everybody in the chamber could be for, both people who believe in the Second Amendment and some gun control advocates. Basically, what this does... this idea comes from... As you well know, we have taverns and liquor distributors and bars here in the State of Illinois. Many, many years ago we came up with the theory called dramshop and basically, for those of you who don't know what dramshop is, when you have people giving liquor out, which actually is a drug and alters someone's mind, people who got drunk or were overserved may go out and get in an accident or whatever it may be. So, what we

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

4/6/2005

did many, many years ago and all 50 states have this, if you were a liquor distributor, in this case a bar owner, and you wind up serving liquor where it was shown that you overserved or you were an irresponsible deliverer of liquor, then you can be sued by the victim who could be any victim of a crime by the person who was under the influence of alcohol. Now, if you've served it responsibly, then you can't be sued. And what these liquor distributors do and bar owners, they go out and get dramshop insurance. Now, here's what this Bill does. If you are a gun store owner and you followed the law, this Bill doesn't apply to you. But if you are a gun store owner and you sell the gun illegally or you know not... should have known, but actually know, that it's gonna be... there was gonna be a crime committed with that gun and then that person who has the gun goes out and commits a crime and now I'm a victim of that crime. I now am allowed to go to the gun store owner and if I show that, in fact, he wound up breaking the law in selling this gun, then I can sue him for damages much like I could sue the tavern for damages. It's a... extension of dramshop. So, it puts civil liability on the gun store owner. Now, the reason everybody in this chamber should be for this, I read on the gun advocates and I read on NRA literature and all of 'em are for responsible gun ownership and both of 'em are for responsible gun shop ownership. So, if you're for responsible ownership and for responsible gun shop ownership, this Bill would be for you. This does nothing to gun owners. This has nothing to do with people

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

who own guns. It has nothing to do with that. All we're saying is that if you're a gun owner... gun shop owner and you don't follow the law, you can be sued and there's limits, just like in dramshop, of the civil liability. So, all this will do is send a public policy message to gun store owners that, hey, follow the law. So, I'm hoping that people who side with the NRA and the Second Amendment and gun control advocates will all get the other... behind this Bill to let gun store owners know that if you're a responsible gun store owner, we're with ya and if you're irresponsible, you're gonna be able to be sued. Now, I'm gonna answer any questions."

Speaker Hannig: "This Bill's on the Order of Standard Debate.

So, on that question, Representative Bost is recognized."

Bost: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hannig: "He indicates he'll yield."

Bost: "Representative, to what level does this go back? Is it, say, for instance, I go in... or someone comes in to my gun shop and they buy a gun. Then they take it out and... and they store it in their home. That gun is then stolen, used in a crime. Is that... am I then responsible?"

Molaro: "No."

Bost: "If someone in my family uses it in a crime, am I... am I or someone in the family of the person I sold it to uses it in a crime, are they responsible?"

Molaro: "No."

Bost: "Now, then it can't be like dramshop law. I'm... I'm trying to figure out..."

Molaro: "No. The dramshop comparison was that if I'm the bartender and I know that you're... had enough and I keep serving you, which is really not what you're not supposed to do, and I'm an inrespons... irresponsible bartender or irresponsible bar owner and I serve you beyond your capacity and you personally, the person I serve, goes out and... and damages someone, then I, as the victim, can sue the bartender for not observing the law. So, in other words, it would have to be that I served you. In your examples, you would talk about someone who stole it or someone else. This... that has... It's not, again, what I'm trying to do in this Bill."

Bost: "But once we start talking about an item that can be transferred from person to person, you can't apply dramshop rule."

Molaro: "Yeah."

Bost: "If I... if I get drunk in a bar, I can't go out and tap somebody on the back and all of a sudden they're drunk and then..."

Molaro: "That's correct."

Bost: "Right. So, now, all of a sudden we're... we're setting a whole different precedence here. Now, we're taking an object... Okay."

Molaro: "Right."

Bost: "The object is a gun and if we're gonna set that precedent, do you think we should also do that with automobiles?"

Molaro: "Well... But... but I don't understand you. Maybe... maybe I'm the blockhead here."

Bost: "Okay."

Molaro: "Or may... this is what I don't understand. The gun itself... I got no problem with the gun. The gun's legal. We have no problem, you can't transfer. All we're saying is there's a gun own... there's a gun shop dealer, owner of a gun shop. Okay. He has to follow the law when he sells you, Michael, the gun or transfers the gun to you. Now, if he follows that law to you, okay, and... any person who's not legally authorized to possess it. So, he sells it to you. You're legally authorized to possess it. Okay. It says here, number two, a person who's purchased on behalf of another. He knows you're purchasing it for yourself. And number three, delivers knowing that they intentionally will do something unlawful and you, of course, aren't. So, he sells it to you. You have a FOID ID card. He has no reason to believe you're purchasing as a 'straw purchaser' and he knows you're not gonna do it for unlawful purposes. Now, he sells it to you. Once he does that, he's free and clear. If you give it to someone and they go out and kill ten people, he cannot be sued. If you take that gun and it's used anywhere else a hundred years from now or the next day, he cannot be sued because he followed those three items I just mentioned. So, what you're saying, I'm not trying to do. So, the gun itself can be used anywhere. I'm just saying if the gun owner sells it to you, Michael, and he follows the law, then whatever happens to the gun

later, of course he can't be sued. We're just saying, the only way he can be sued is if he sells it to you illegally, knows you are a 'straw purchaser' or knows you're... you, Michael, are gonna use it illegally. That's all we're saying here in this Bill. We're not taking it any further, whatsoever."

Bost: "Suppose that some type of fake ID has been produced..."

Molaro: "Right."

Bost: "...is the person who made the sale then responsible?"

Molaro: "No."

Bost: "Okay. I'm gonna listen to a lot more debate on that.

I'm... I mean..."

Molaro: "But I..."

Bost: "I don't know how I'm... I'm trying to find out some information."

Molaro: "Well, and dramshop, I was using it as an example."

Gordon: "I know. I know what you're..."

Molaro: "Obviously, it's not right on point. It's not even close to being on point. I was just using it as an example whereby in civil liability you could go to the person, ya know, because obviously there's no direct causation..."

Gordon: "Okay."

Molaro: "...to the civil liability."

Gordon: "Right. And I guess... I guess I take exception to using that even as an example with the civil liability because in that case the person who would be at fault is right in front of you and the person serving it they're going to see."

and you don't sell it to me illegally, you don't know about... you have no idea I'm a 'straw purchaser' and you have no idea that I'm gonna use it unlawfully, you meet those three tests, then you can't be sued. There's no way you would have any civil liability as a gun shop owner."

Gordon: "Well..."

Gordon: "Right. Well, I think that we've seen a lot in our society in the different lawsuits that have occurred. People suing the manufacturers of guns. The... your legislation truly opens it up for more lawsuits to be filed, whether or not people can prove those lawsuits."

Molaro: "Well, but it would only... the Bill only calls for irresponsible gun store owners to be sued and I... I know, I read the NRA material and the gun control. Everybody's for responsible gun ownership. So... so, if the gun shop owner's responsible, which 95 to 99 percent of 'em always follow this law, they would never, ever be in a position to be sued. This is just to the irresponsible gun store owners,

not the gun... not the gun owner, the gun store owners. This has got nothing to do with individuals or... or gun owners, nothing whatsoever, strictly gun store owners saying ya gotta be responsible. If you're irresponsible, you may be able to be sued."

Gordon: "I appreciate that... that characterization, Representative. To the Bill, Mr. Speaker."

Speaker Hannig: "To the Bill."

Gordon: "Ladies and Gentlemen, I appreciate the Representative bringing... bringing this up, but as some of the things that Representative Bost has preely... previously brought up... brought up and one of the things that I see that is a big concern is that this is going to promote litigation of gun... gun store owners whether or not they are responsible or irresponsible. This is going to open up that someone is going to lose a loved one due to gun violence and they're going to find someone to blame for this. And people are going to sue that gun shop owner, even though he did his job. I appreciate what the Representative is trying to do. I think that this is something that's opening up further litigation for people who are trying to follow the law. And I would respectfully urge you to oppose this Bill."

Molaro: "Yeah. I mean, it's def... it's definitely possible."

necessary? It sounds like if they followed the law that we already have, this is..."

Molaro: "Well..."

Hultgren: "...not necessary and if they don't follow the law, ya know, there's already court cases out there that show that they could be held responsible for that inappropriate behavior. Isn't that true?"

Molaro: "Well, no. Well, that's not true. What... what we have in law, obviously, they... they face some sanctions either from the State Police or whatever. What this allows, does for the first time ever, is that if I'm a victim of a crime, just like... And the only reason I bring up dramshop so it might be easier to visualize. If I'm a victim of a crime and the gun stop(sic-shop) owner today acted irresponsibly, comes up and he absolutely admits, hey, I knew the guy didn't have a FOID card. I knew he was 17 years old, but I sold it to him anyway. I, as the victim, cannot sue him. I cannot go after him because he didn't cause my injuries. My injuries were caused by the evil doer who shot me. So, all we're sayin' is, this would now allow me to go in and sue the gun(sic-shop) owner if it's shown that he's acting irresponsible. Right now, I can't sue the gun(sic-shop) owner because there's no causation. It's kind of a legal mumbo-jumbo, but that's what we do now in this state and this country. That's why we have the laws of dramshop is because in this country you cannot sue somebody unless there's approximate causation. And as we

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

know, the gun shop owner didn't sue... shoot me, that's a certainty."

Hultgren: "To the Bill. I... I think I... most of us agree with the concept of responsible gun ownership. I think all of us agree with that. I think the problem comes in really, the vagueness of the language here and opening up a potential frivolous litigation against clerks and store owners, things like that. I'm concerned about the line in there, 'to know or should have known'. And I think it's a real mistake to tie this to the Dramshop Act. It's very different, obviously. We tie that to very physical symptoms that someone has who has consumed too much alcohol. Those would certainly not be present in a case of someone going to purchase a gun. So, I've got some real concerns of opening... how this is worded. I think it's much too broad and really needs to be tightened up. And for that reason, I think I'm probably gonna need to oppose this legislation at this time. Thank you."

Speaker Hannig: "Okay. Representative Bost, you've spoke in debate, previously. For what reason do you rise, now?"

Bost: "Thank you, Mr. Speaker. My name was used in debate."

Bost: "Ya jus... just briefly, if I can, Mr. Speaker. I just... First off, I don't know what I can add to what the previous speaker said except that... that we are starting down a slippery slope when you look at the language. 'Know or has reason to know' the firearm will be used unlawfully. How do... how do you know or have reason to know? As... as this goes on, as well, if... if you look, I don't believe it's necessary that if someone truly is negligent in following the law, they are going to be able to be sued, under existing law. And Mr. Speaker, if this gets the required number of votes, I'll ask for a verification, please."

Speaker Hannig: "I'm sorry. You just requested a verification?"

Bost: "Request verification. Yes, thank you."

Speaker Hannig: "And you'll be granted one at the appropriate time. So, we've had three now speak in response. Does anyone wish to speak in favor? Representative Froehlich. No. Okay. Why don't we allow you to ask a question. It is an important Bill. So, Representative Froehlich."

Froehlich: "Yes. Representative Molaro, I think it is important to hold people responsible when they break the law. What bothers me here is I'm looking at the text of your Bill. It's not clear to me that... that you would create liability only for people who break the law. That

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

the part that bothers me is where it says, 'if you sell it to somebody who's buying for somebody else and that other person misuses the firearm, the seller can be sued.' And... and I'd ask you, how can you know if you're selling... you're selling to somebody who is allowed to make the purchase that that person's really buying it for somebody else? In other words, unless the other guy is standing right there pointing out the gun that he wants you to buy and givin' ya the money, which I 'spose could happen, but you'd think even criminals might be a little smarter than that. How could you know?"

Molaro: "You wouldn't... You're right. You wouldn't be able to. It's very, very, very rare. That's why this Bill wouldn't apply to many people. It's extremely rare. You would have to know that someone's doin' it. The old 'straw purchase' stuff. If you let... And your example, you wouldn't know then you're not held to that standard and you can't be sued. So, I'm agreeing with ya. Me and you are in agreement."

Froehlich: "But... but... but I don't see it in... in the wording of your Bill that says... it simply says, you have liability if you intentionally or negligently deliver to a person who is purchasing the item on behalf of another person."

Molaro: "Right. Right. I would... So, intentionally or negligent would mean sorta like when they were talking about 'known or should have known'. We use known and should have known in a hundred different statutes. In the Criminal Statute it's done all the time. I would have to

know that my conduct or should have known would cause great bodily harm. We use it all the time. Same with intention or negligent. I would have to sell it to him knowing that, in fact, he's buying it for another person. If I can't prove that to the jury, which is very, very difficult to prove. You're right. Almost impossible to prove. If I can't prove that to the jury, then I have no lawsuit against him. So, I'm agreeing with you that this hardly's ever gonna come up. This particular part, Section 2."

Froehlich: "That's right."

Molaro: "I agree."

Froehlich: "Okay. Well, I appreciate you clarifying that even though, as I say, the language to a layman a nonlawyer..."

Molaro: "I agree."

Froehlich: "...I look at it and it causes me some concern here. And the third part, could you explain again what it means if you deliver to any other person who the seller knows or has reason to know will use the item unlawfully? How... Could you give me an example of how, if I'm the seller and I sell it to somebody who can legally buy, how I should know..."

Molaro: "Well..."

Froehlich: "...or would know that he's gonna... Is he gonna tell me he wants..."

shop owners, okay. So, let me... You said you asked for an example, I'll give it to ya. People... I won't use the dramshop example. A guy comes in there and he says, yeah, I gotta do this, I gotta buy an... okay. We've got to get this 72 hours, 24 hours, and then he comes in there and you're just talking to him. Yeah and this does this. Yeah, I hope this does the job against my wife, that dirty bi... I'm gonna kill her... Well... well, then you would know. Now, to say that people don't talk like that, people talk like that all the time. So, if you're a gun shop owner and you hear somebody talking like that, that would put you on notice. Does it happen often? No way, thank God. But it does happen from time to time, someone will go into a bar, someone will go into a gun shop and they would say, yeah, I'm at my wit's end, I need this. These kids are in this neighborhood. They're drivin' me nuts. I need this gun 'cause sooner or later I gotta shoot a round off to set... put these kids in... ya know, let these kids know I mean business. If you're a responsible gun shop owner, you would never sell a gun to somebody like that and if you have these facts and you just wanna make that \$140 sale, then be prepared to get sued because you weren't responsible. And that's what it does there."

Froehlich: "Well, is it illegal, currently, to make a sale under that circumstance? Is that..."

Molaro: "If you sell it, it's against the law."

Froehlich: "Right."

Molaro: "If you sell it to a 'straw purchaser' and you know that the person you sell it... someone else, that's against the law. That's two."

Froehlich: "Right."

Molaro: "And on the third one, you cannot sell a gun to someone who you know or should have known was gonna use it in a crime. So, those are three things that are against the law. Difficult to prove, but against the law. And all I'm saying is that if I'm a victim and I get hurt and I can show that this gun(sic-shop) owner did, in fact, break those... one of those three things, then I can sue him. And that's all we're asking for now."

Froehlich: "And you..."

Molaro: "And again, 90..."

Speaker Hannig: "Representative Froehlich, your five minutes have expired. Representative Molaro is recognized to close."

Molaro: "Thank you. Thank you, Mr... Mr. Speaker. The only good part of this Bill and while I'm asking everybody to really take a long look at this. Even in debate, what the three or four people who spoke up against it, the best they could do was say, we're on some slippery slope and we have frivolous lawsuits. We have frivolous lawsuits all day

long. It's always gonna happen. The only thing that this Bill does is say, we want responsible gun shop owners and if you're irresponsible and you break the law, the victim... we're always up here screamin' about no one cares about the victim. Well, let the victim of the crime absolutely go be able to sue. And you cannot sue now unless you show proximate cause. This allows you to do that. Now, one thing on a personal item. I wish people would listen to this on a personal item. People, four or five people spoke against this Bill. I wanna know why when they get up and speak against other Bills they say they have the utmost respect for the Sponsor. I didn't get that from anybody who spoke against this Bill. And I'm gonna be talkin' to those four people after this. Now, back to the... He respects me, so I take it all back. Now, back to the Bill. This is... this is like those Bills that I voted for. Representatives, who I voted for your gun Bills, remember, just because it's a gun Bill don't jump up on both sides and say, here we go at a slippery slope and all of the gun advocates, I'm against every NRA Bill and all the supporters of NRA, I'm against every gun advocate Bill. That gets us nowhere. When ya make sense, ya make sense. This Bill makes sense. If you're a responsible gun own... gun store owner, you have nothing to worry about. This Bill does nothing to gun(sic-shop) owners, nothing. All this does is allows a victim of the crime that if you're a gun store owner and you're irresponsible, then you can be sued. If you're responsible and you follow the law, you

can never be sued. You can only be sued if you're irresponsible and you break the law and this gives the victim, for the first time in Illinois history, a way to go after irresponsible gun owners. Thank you. I mean, gun... gun store owners."

Turner: "Thank you, Mr. Speaker, Ladies and Gentlemen of the Assembly. I bring to you today House Bill 3763. It's an initiative brought to me... presented to me by the Chicago Housing Authority. It does a couple things. Back in... several years ago we developed a plan for the Chicago Housing Authority, it's called Plan for Transformation where they shut down a number of the high-rise units and have now disbursed those units throughout the entire city and county. What this particular Bill will do and in some units we allowed, according to the Section 18-177, a few years back we said that the maximum number of units that could be tax abated in any one development was 40 percent. This particular Bill would allow us to increase that limit to 40(sic-50) percent and that 40(sic-50) percent limit would only be for three different units in the City of Chicago where we need this in order to expedite the pass-

through on those developments. Those three developments are the Hilliard Home, the Rockwell Home and the Robert Taylor Home. Those are the only three units where we're asking for this expansion from 40 percent to 50 percent in terms of those units that will be abated from the income tax... or property tax. And I move forward for the support of House Bill 3763."

Speaker Hannig: "This is on the Order of Short Debate. Does anyone stand in response? Then the question is, 'Shall this Bill pass?' All in favor vote 'aye'; opposed 'nay'. The voting is open. Air Act and also to stem the epidemic of asthma that we are currently experiencing. House Bill 2347 prohibits the idling of a diesel engine for more than 10 minutes in any 60-minute period. The prohibition is limited to certain areas of the state that do not meet minimum... minimal air quality standards under the Clean Air Act. This is, right now, basically the Metro East area, the Chicago Metropolitan Area and a couple of townships in Grundy and Kendall Counties. That's the basic standard is no more idling than 10 minutes in any 60-minute period. We have a number of exceptions; however, those include emergency vehicles, if you're using a piece of equipment or a truck that is... that has auxiliary equipment. For example, a cement truck or if som... if a worker is up in an overhead bucket, you can obviously run the truck... the piece of equipment then. If the outdoor temperature is below 32 degrees Fahrenheit, if your vehicle has a sleeping berth, it does not have an axil... owner unit to provide for operator safety and you need to rest to comply with Federal Law, any farming activity is exempt, idling for safety checks and school buses. Reducing excessive idling is an important public health initiative. Diesel exhaust contains cancer-causing agents and fine particulate matter pollution or soot. According to a recent report issued by the American Lung Association, fine particles from diesel emissions cause 878 deaths every year in Illinois, trigger over 19 thousand asthma attacks and nearly 12 hundred heart attacks every year. Finally, because we do have numerous

counties in Illinois that do not meet standards under the Clean Air Act, Federal Law demands that we develop a plan to come into compliance. Reducing excessive diesel engine idling will be a significant step forward in achieving compliance. We're not breaking new ground here. Excessive idling legislation has been passed in 21 jurisdictions around the country including New Jersey, Connecticut, Maryland, California, New York City and Washington, D.C. Every one of us in this chamber is aware of the skyrocketing rates of asthma around our state. Again, this is an important move... step forward in combating that epidemic. And I ask for your support."

Nekritz: "That's... that's not what they said, Representative."

Parke: "What did they say? That's what some people did say."

Nekritz: "They indicated that they were concerned that because many jurisdictions were moving in this direction that it was creating a patchwork and that they would not know what the... what the individual standards were in each state. But they didn't say that it would... it would impinge on the industry itself."

Parke: "Well, that is right. So, therefore, it creates a problem. Are they still... did... You put a number of Amendments on, right?"

Nekritz: "We... Well, we adopted an Amendment in committee and a separate Floor Amendment."

Parke: "All right. And so, therefore, are they still... is the Mid-West Truckers Association still an opponent?"

Nekritz: "Yes."

Parke: "And their opposition is just simply because a trucker may not know... He goes over one border, he's in another jurisdiction and it's a difficulty for him or her to make a determination whether or not they are complying with State Law."

Parke: "Well, I have a problem with that very issue. But I just want the Body to know that this is a controversial Bill. That there is a... a lot of questions and concerns about it. And that they need to pay attention on how they're gonna vote on this."

Speaker Turner: "The Gentleman from Jackson, Representative Bost, for what reason do you rise?"

Bost: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "She indicates she will."

Bost: "Representative, do you have any clear knowledge of... You know, it says that the truck is required to be shut off if idling was gonna be for more than 10 minutes. What's the actual fuel consumption that will occur in that time in comparison to if you went ahead and let it i... for restart and idle comparison?"

Nekritz: "Well, my understanding, Representative, is that if a diesel... a large diesel engine idles for an hour, it consumes one gallon of diesel."

Bost: "Okay. For an hour?"

Nekritz: "Correct."

Bost: "Now, your Bill says 10 minutes."

Nekritz: "Right."

Bost: "Okay. So, based on that, but... but what... what are your answers for how much... how many gallons of fuel it takes to actually start a diesel?"

Nekritz: "I... I don't know that specific number."

Bost: "I know you don't know that. Okay. That being said, Ladies and Gentlemen, please, can I have your attention. To the Bill, Mr. Speaker."

Speaker Turner: "To the Bill."

Bost: "I understand that we do want clean air. I want clean air as much as you do. Ladies and Gentlemen, depending on the air temperature, depending upon the rate at which the engine cools down, all of these are factors and quite often, after 10 minutes it will... can't consume... take more fuel to actually start that engine than what it does to leave it idle. Now, the problem that exists there is, is the reason it takes more fuel to start is... is because instead of it burning clean, raw fuel is being shoved out the exhaust pipes and if you'll ever watch when a diesel motor will start, there's a... there's a time and it depends on whether it's a Detroit, a Cummins, a Cat and it depends on how it fires that fuel on whether that's black smoke or white smoke or how it blows out or how she's burning, but based on that you're producing more air pollution and I will argue that this will create more air pollution... Now, it's great to go back to your district and say, oh, see what I was trying to clean the air up. But you need to understand what and how these trucks operate. I'm gonna

give you another problem that exists with this Bill. Ladies and Gentlemen, my family's been in the trucking business for their... since 1933. Folks, what's gonna happen is... now, now, it depends on the age of the truck, the cost of doing this is more expensive to your trucking companies. Now, I know that this General Assembly has been very wise and paid much attention to the fact that whatever we do we don't wanna cause the trucking business in the State of Illinois to have an undue fee on it. That's why we lost 17 thousand trucks registered in the State of Illinois last year because of the registration fee. Now, what we're gonna do is, is we're gonna put a new Bill out there that says, okay, now we're gonna cost you more money to operate your vehicles again. Why? Because you're burning more fuel, because you're wearing the vehicle out more because every time you start it, it is rougher on the motor, it is rougher on the starter. Folks, think about what we're doing here. This Bill is not good. It is not the time for this Bill. And I encourage a 'no' vote."

Speaker Turner: "The Gentleman from Vermilion, Representative Black, for what reason do you rise?"

Black: "At my age I can't remember. Oh, yes, thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "She indicates she will."

Black: "Representative, there's a lot of interesting concepts in this Bill and in a perfect world I can understand this Bill, but we don't live in a perfect world and I'm not gonna see that in my lifetime, you may see it in yours."

Everything that comes into, I daresay your district and mine, comes in by truck. What you wear, what you buy at the grocery store. Almost every conceivable consumer good is delivered by truck. Now, let me give you a for instance where I think this Bill has a major flaw. A truck backs up to the loading dock at a supermarket to unload a hundred thousand gallons of milk. It's called a refrigerated truck. What powers the refrigeration unit in that truck?"

Nekritz: "Representative, there is an exception in the Bill. You can idle if you are running auxiliary equipment and I would assume that the refrigeration is an auxiliary equipment to the truck."

Black: "No, it's not really auxiliary to the engine, it runs by itself. It's separate from the engine. It's generally mounted on the trailer in front and it's a diesel-powered engine that runs the refrigeration unit in a refrigerated truck and it runs all the time. I mean, when they're making deliveries they can't shut it off. So, whatever benefit you get from telling the driver, while he's unloading the hundred thousand gallons of milk, to shut off his engine, what are you gaining when the refrigeration unit on the trailer runs constantly? You can't shut it off."

Nekritz: "And... and Representative, I agree. We don't live in a perfect world and it is not my intention to... to cause spoiled milk or melted ice cream to be delivered. We are simply trying to eliminate excessive idling not necessary idling."

Black: "You live in a area where a lot of homes are built. I..."

Nekritz: "No, that I don't... I disagree, but..."

Black: "Well..."

Nekritz: "They're all built out."

Black: "...I... I think your population density is probably greater than mine, but... When my daughter lived in Naperville, I was always fascinated by the number of homes that were always under construction. She's subsequently moved to North Carolina which broke my heart, especially Monday, but when I would visit her home in Naperville and I was just fascinated by the sheer volume of home building and at every one of these sites sits a cement truck and a cement truck can't be turned off, the drum has to go around and has the power then to put the concrete out for the home. So, and as you've said, that's an auxiliary use and your Bill doesn't cover it, but I... I think there are so many tradeoffs that the Bill doesn't really have the impact that you... that you would think that it would. And the cement trucks are always in residential areas, not always, obviously there's some in commercial, but they can't shut off and your Bill doesn't require them to shut off, otherwise they couldn't deliver their product. I flew out to Arizona on spring break to visit my father and help celebrate his 87th birthday. I sat on a runway on an airplane for about 90 minutes. Now, granted that isn't diesel fuel; it's a... a jet fuel, kerosene-based, but for 90 minutes that airplane sat there running its engines, magnify that by O'Hare... I mean, I... I know we wanna make

incremental steps, but I don't think this Bill really accomplishes a great deal. And let me just shift gears. What... How in the world do you enforce it? Is somebody gonna sit there with a stopwatch... Ha, ha, ha, your 10 minutes are up. I... How in the world will it be enforced?"

Nekritz: "Representative, that... that is my understanding of what's happened in New Jersey and New York City and they have dramatically reduced the... the pollutants from diesel engines in those... in those areas by... by rigid enforcement."

Black: "By rigorous enforcement. They must have a lot more police officers than we do, but that's another... that's a whole 'nother issue. Does the Bill say anything about diesel locomotives that'll sit on the siding? I have one about six blocks from my house and because of the way the union rules are it's a... they can only run so many hours and then you have to wait for a new crew to come and move the train. It's not unusual for that train and the diesel engines who are pulling that train to sit in that residential area and idle for eight hours. Does it do anything with a diesel railroad engine?"

Nekritz: "No, Representative, I don't believe it does."

Black: "You have no intent to create a new unit in the Illinois State Police, the diesel police, do you?"

Nekritz: "I... I... I would love to create the diesel police, but this Bill does not address that."

Black: "Okay. I... I do appreciate the fact that you have made a good faith effort because of weather diesel fuel gels and you've made the weather exception, you've made some

auxiliary exceptions. I do... I do appreciate the fact that you've tried, diligently I think, to address some of the problems. However, I stand in opposition to the Bill. Mr. Speaker, to the Bill."

Speaker Turner: "To the Bill."

Black: "I think Representative Bost made it very clear. I hope you listened. The Secretary of State registration figures can document that we lost almost 18 thousand truck registrations in Illinois in a 1-year period, in the last fiscal year because of fees. Now, we come in with additional regulations that add to the cost of operating... Think of what they're... what they're spending on diesel fuel alone and here comes another well-intentioned regulation. I question its enforceability; I question whether it's really practical in the real world. Those trucks sit on the Dan Ryan or the Chicago expressways and it's... it's... it's legal under her Bill, they don't go a mile in an hour and they... they're running the entire time. So, I'm not sure what this Bill accomplishes, but let me just close by saying this. We have to recognize the realities of our economic life. I depend on trucks to deliver everything I need. Everything from fuel to my gasoline station which, quite frankly, now should be delivered by a Brink's truck rather than a gasoline truck, but everything I use in my life is delivered by truck. And yet, we seem determined to put more and more and more regulation on the trucking business. I don't know whether this applies to biodiesel, I have no idea. Hopefully, they'll all be biodiesel in 5

or 6 years. This Bill eventually drives up costs that you and I pay. Everything being delivered by truck today is more expensive than two months ago because of the fuel surcharge. Every fee increase we've put on the trucking industry is passed on to the customer. Every regulation we've put on the trucking business is going to be passed on to the customer. Sooner or later we're pricing goods out of the marketplace and we're not making Illinois a business-friendly state. Less than two months ago I heard the Governor of this state say we were gonna make every effort to be business-friendly. This legislation does not make Illinois business-friendly. No matter how well-intentioned the Bill is it's simply a fact that until we get new technology, new alternative fuels, what we are faced with is what we have: diesel-powered trucks, diesel-powered engines that refrigerate the tractor... the trailer that delivers your milk, your food, all of the materials that you eat. To put this regulation on the trucking business at this time makes no economic sense, it is not enforceable. I urge a 'no' vote."

Speaker Turner: "This Bill was on Short Debate. We've heard two opponents. I have three other speakers. Is any of those three a proponent? Is there anyone who wants to speak for the Bill other than Eileen? Okay. Seeing no further questions, the question is, 'Shall House Bill 23... Representative Nekritz to close.'"

Nekritz: "Thank you. Ladies and Gentlemen, I'd like to address a couple of the arguments that have been made. First, with

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

regard to biodiesel, the Illinois Farm Bureau discussed this with us and that is why we raised the temperature to 32 degrees as a limit on... on this particular piece of legislation because they wanted to promote the use of biodiesel and so did I. As far as the cost of this, I couldn't disagree more. A number of companies are requiring their... their drivers and their operators to turn the engine off because of the cost of diesel en... of diesel right now. It's so expensive that they are trying to save money by turning the engines off and thus, reducing the amount of exhaust. Now, I'd like to... to also respond to my... my colleague from Jackson County with regard to the dark puff of smoke that comes out. It's really what you don't see that's the most important. There are several kinds of pollutants produced by diesel engines and one of them is nitrogen oxide. Nitro... or NOX as it's affectionately known. NOX is... is by far the largest component of the pollution that comes out of a... of a... of a diesel engine. It's 20 times the volume of other pollutants. And NOX is produced whether... when the engine is running, whether it's starting up or not, NOX is produced and when you turn it off, there is no more NOX. This NOX contributes to ozone and particulate matter soot and again, we are... and we have areas of the state that are in... not in compliance with federal... federal health... health standards for both of these pollutants. Continuous idling creates NOX and turning the engine off does not. Now, what... so, what is the dark... the dark puff of smoke? The

STATE OF ILLINOIS  
94th GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

34th Legislative Day

4/6/2005

dark puff of... puff of smoke, as I understand it, is the soot that accumulates in the engine as it sits around for several hours. These particles are larger than what is... what hap... the particles that are emitted when the engine is warm and so when they come out, of course, they're more visible. In addition, when the engine is started, there is less air running through the engine so there is less air to dilute the pollution. So, we see more of it when the engine starts and when it's warmed up and running, we see less because the... the part of particulates which are still pollution are more diluted. So, again, this is a public health matter. It is meant to address the... the problem that we have of being in a nonattainment area for fine particulate matter in the... in the Metro East area and the Metropolitan Chicago area. And again, we have a terrible problem with asthma throughout this state and this will really help us move forward on that. I ask for your support."

Speaker Turner: "Seeing no further questions, the question is, 'Shall House pa... shall the House pass House Bill 2347?' All those in favor should vote 'aye'; all those opposed vote 'no'. The voting is now open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Parke? Have all voted who wish? The Clerk shall take the record. Speaker Turner: "Third Reading. Page 11 of the Calendar, Second Readings, we have House Bill 1395. Representative Saviano. Read the Bill, Mr. Clerk."

Clerk Mahoney: "House Bill 1395, a Bill for an Act concerning government. Second Reading of this House Bill. No Committee Amendments. No Floor Amendments. No Motions filed."

Speaker Turner: "Third Reading. On page 9 of the Calendar we have House Bill 1098. Representative Nekritz. Out of the record. On page 30 of the Calendar, Third Readings, we have House Bill 3564. Representative Osterman. Read the Bill, Mr. Clerk."

Clerk Mahoney: "House Bill 3564, a Bill for an Act concerning State Government. Third Reading of this House Bill."

Speaker Turner: "The Gentleman from Cook, Representative Osterman."

Osterman: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. House Bill 3564 deals with ovarian cancer and adds to the Penny Severns Breast and Cervical Cancer Research Fund, ovarian cancer. It also makes any grants for ovarian cancer research subject to appropriation. Ovarian cancer is a cancer that affects a large majority of women in the State of Illinois and around the country. The purpose of this legislation is to give some flexibility to Public Health to offer grants for research to try to find a cure for ovarian cancer as well as try to find early detection. Ovarian cancer has problems where the cancer is found late which leads to a higher mortality rate than some

of the other cancers. The goal of this legislation is to try to, through the budget process, find some resources that can go towards grants and that will be something I will be working on. But I would ask for an 'aye' vote."

Speaker Turner: "Seeing no questions, the question is, 'Shall House Bill 3564 pass?' All those in favor should vote 'aye'; all those opposed vote 'no'. The voting is now open. Have all voted who wish? Have all voted who wish? Have all voted who wish? The Clerk shall take the record. On this question, there are 114 voting 'aye', 0 'noes', 0 'presents'. And this Bill, having received the Constitutional Majority, is hereby declared passed. On page 10 of the Calendar we have House Bill 1351. Representative Deborah Graham. Read the Bill, Mr. Clerk."

Clerk Mahoney: "House Bill 1351 has been read a second time, previously. No Committee Amendments. Floor Amendment #1, offered by Representative Graham, has been approved for consideration."

Graham: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 1351... Actually, Amendment #1 puts a time limit on how long... if a person leaves the site of... the site of an accident, a hit and run, how much time we can use to give them drug testing. So, suggested that I put a time limit in there so I've limited the time up to 5 hours instead of being unlimited. So, it's up to 5 hours now."

Speaker Turner: "The Lady from Kane, Representative Lindner, for what reason do you rise?"

Lindner: "Will the Sponsor yield?"

Speaker Turner: "She indicates she will."

Lindner: "Thank you. Representative, it was my recollection in committee that you were going to hold this on Second to work on an Amendment with the state's attorney. Is this the state's attorneys Amendment?"

Graham: "Actually, I... I... I said I would offer an Amendment, but yes, this is a recommendation that he did give me, yes."

Lindner: "So, you worked with the state's attorney?"

Graham: "Yes."

Lindner: "All right. And are they supporting this Bill now?"

Graham: "Yes, they should be. I don't think that they were opposed to it before. I think the chairman of the committee asked that I work with the state's attorney. The state's attorney did not initially ask for an Amendment, but the chairman thought that it would strengthen the Bill if I put... would put a time limit in the... in the legislation. For instance, if a person left... If they did a hit and run and we caught them five days later. Maybe the alcohol or whatever substance they use may have been out of their system so then they could use that in their own defense to say that they were not intoxicated. So, the chairman of the committee suggested if I... to make the Bill stronger, to put a time limit on it. The state's attorney did not initially ask for an Amendment, but I did go to the state's attorney and they suggested maybe 5 hours after an accident."

Lindner: "All right."

Graham: "You're welcome."

Speaker Turner: "Seeing no further questions, the question is, 'Shall the House adopt Amendment #1 to House Bill 1351?' All those in favor should say 'aye'; all those opposed say 'no'. In the opinion of the Chair, the 'ayes' have it. And Amendment #1 is adopted. Further Amendments?"

Clerk Mahoney: "No further Amendments. No Motions filed."

Speaker Turner: "The Lady from Cook, Representative Nekritz."

Nekritz: "Thank you, Mr. Speaker. The Amendment to this piece of legislation... this legislation seeks to ban the .50 caliber sniper rifle. And the Amendment would remove the ban on ammunition so that the... the legislation would relate strictly to the gun."

Clerk Mahoney: "House Bill 740, a Bill for an Act concerning public aid. Third Reading of this House Bill."

Speaker Turner: "The Lady from Lake, Representative Ryg."

Ryg: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 740 would assist persons who have been found eligible for Medicaid benefits but have assets or monthly income that must be spent down before the benefits apply. It's based on a recommendation following a feasibility study of the Department of Public Aid and Human Services. And would provide for a payment option, which simplifies the process for both the recipient and the local caseworker. The Bill has passed the House previously, was passed in the House and Senate in the 93rd General Assembly, but was vetoed by the Governor. And I'm reintroducing it to make sure that we can continue to provide opportunities for public aid recipients to have the most cost efficient and effective customer service."

Schock: "Okay. As I mentioned in committee, the Floor Amendment... there are a number of changes. First of all, it re... it replaces any reference to the Department on Aging and basically, that's all their responsibility with the Department of Public Aid to produce and publish his website. Rather than include 25 of the most commonly prescribed drugs, I believe, Representative Franks, I took your advice on this one and it is now expanded to the 50 most commonly prescribed drugs. Wording is added... added to clarify that the website shall be updated at least every two months and shall state the date of the last update and that addresses the concern of Public Aid that some of the information may be dated based on the age of the data warehouse information that they're gonna use."

Franks: "Okay. I think this makes it..."

Schock: "There... there are a number of changes. They... The prescription drug discount card, senior care circuit breaker prices are also gonna be required. There are gonna be links to for-profit companies that have websites: Walgreen's, Wal-Mart, CVS that may have their own that... that would provide more up-to-date information than this website. So, it addresses all of the concerns that committee Members brought forward and I really appreciated some of the good ideas that Members of the committee, like yourself, were able to share with me."

Franks: "Well, I appreciate you doing it. And I wish I would have thought of it."

Schock: "Okay."

Franks: "Thank you."

Speaker Turner: "The Lady from Cook, Representative Mulligan,  
for what reason do you rise?"

Mulligan: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "Indicates he will."

Mulligan: "Representative, is this the only Amendment you  
intend to put on the Bill and this will be the final..."

Schock: "Yes."

Mulligan: "Do you understand that the Department of Public Aid  
is going to change all the prescription drug programs if  
they change to this group... They're changing their name and  
they're going to go at the beginning of the year to  
requiring all our seniors to use medicare and changing the  
programs and that all of this may be outdated?"

Schock: "Well, Representative, what this Bill does is establish  
a website to post the usual and customary prices that cash  
paying citizens would... would pay if they went into a  
particular pharmacy in their hometown. So, it's meant to  
help those cash paying customers first, but also recognizes  
the fact that we may wanna post some of these additional  
programs' prices as well."

Mulligan: "So, it's gonna link them to pharmacies in their own  
hometown?"

Schock: "I'm sorry? I'm having difficulty hearing you."

Mulligan: "Is it going to link them to pharmacies in their hometown or their area?"

Schock: "Yes, it is. If... if those websites... if those pharmacies... it allows for those pharmacies to opt to provide a link to their up-to-date information that they may have. So, if it is a Walgreen's, for example, or a hometown pharmacy that has a website, they're able to offer a link."

Mulligan: "Is it going to include what the dispensing fee is for each pharmacy for the drug?"

Schock: "It's the usual and customary price."

Mulligan: "So, it is gonna include a dispensing fee, what the dispensing fee would be for a generic, what a dispensing fee is for a brand name drug under each program?"

Schock: "What... what is the dis... What's the dispensing fee?"

Mulligan: "The dispensing fee is what a company or the state will pay the pharmacy for dispensing the drug over and above what the drug cost, but the consumer doesn't necessarily see that when they get the cost of the drugs."

Schock: "I don't believe that... that this would post that information. No."

Mulligan: "Well, that's a significant cost for dispens... depending on what... how many times you fill the drug. If you fill it for 30 days, you get a dispensing fee. If you fill it for 60 days, you'll only get one dispensing fee. But if you fill it two times for 30, you get two dispensing fees. Also, the fact that pharmacies that buy in quantity get different prices than pharmacies that don't. Is that

gonna be included so that people will understand? I mean, I see that IRMA is neutral on your Bill, but I would think they would have some concern over this because there's gonna be a variety of prices that are charged."

Schock: "Well, I..."

Mulligan: "I'm just interested in the logistics. The logistics of this Bill are extremely difficult, to say the least."

Schock: "You are going to be able to search by the prescription amount that you use for your prescription, but I don't believe it will include large quantities. But you're only gonna be able to receive the amount that is prescribed to you by a physician anyways."

Mulligan: "It's a very interesting idea, Representative. I think there's a little more devil in the details than what's actually appearing here, but possibly it can be worked out over a long period of time."

Speaker Turner: "Seeing no further questions, the question is, 'Shall the House adopt Amendment #1 to 1454?' All those in favor should vote 'aye'... no, say 'aye'; all those opposed say 'no'. In the opinion of the Chair, the 'ayes' have it. And Amendment #1 is adopted. Further Amendments?"

students as well as potential college students to check the courses that they have taken or are about to take, particularly at the junior college level to see how they will transfer to a 4-year institution. Currently, there is a... there is a pilot program being run right now using HECA funds and under the recommendation of the Board of Higher Ed this program would be expanded to include all universities across the state. They've had great success in the Chicagoland area where this is being operated right now in a pilot project and this would just expand coverage so that students could not only check Chicago universities but all universities across the state. Champaign. The... In 2002 Northern joined the partnership; in 2003 the University of Chicago and the City Colleges of Chicago also have joined it and it's been with great success."

Eddy: "Thank you. Mr. Speaker, to the Bill. I think we have all experienced the frustration of attempting to move from one school to another school, whether it be a junior college to a 4-year institution and only to find out that a course we may have taken at one place was not transferable to another place. This is an outstanding concept. It will save money. It will save time for students. It will cut down on the amount of time it may take students to go through school; therefore, saving potentially money in scholarships for those students. This is... this is a outstanding legislation that will make sure a program that is proven successful will be able to continue. I would urge an 'aye' vote."

Speaker Turner: "The Gentleman from Cook, Representative McCarthy, for what reason do you rise?"

McCarthy: "Thank you, Mr. Speaker. To the Bill. I'd just like to congratulate the Sponsor of the legislation. I... I know that it's a very valuable service to... especially to all the community college students of our state. And by expanding this service to all of our public universities, which are in strong support of it, it'll be even a more valuable service than it is today. I thank the Sponsor. He came to me before he presented the Bill in our committee. He showed wisdom beyond his age by doing that. And we are

Speaker Turner: "He indicates he will."

Giles: "Thank you. Representative Schock, I didn't have the privilege of... of being on the Higher Education Committee at the time that you presented this legislation. I've served in that Body ever since I've been in the Legislature. This seems to be a very good program that... that's in place and I think what you're trying to... I guess, what I'm... the question I want to ask, exactly, what are we doing here? Are we asking that courses that are being transferred to a 4-year institution or any degree program that the requirements matches or the acquir... requirements agree with the current city college or university that you're at... at presently. Is that what we're trying to do here?"

Schock: "Representative Giles, what this does is... is basically simplifies the process for a student that is at a... a... let's take a junior college level, a state, who's looking to transfer to a higher university, a 4-year university. Giles: "Three hundred and fifty thousand dollars?"

Schock: "That's correct."

Giles: "Okay. To the Bill. I think this is a excellent piece of legislation. I think this is something that we should have done at least 10 years ago. As one of the previous speakers has spoke, that I believe this will save the students not only a lot of resources or money, but I truly believe it will put that student in the right frame of mind in which he or she knows exactly how many credit hours they'd need in order to advance their higher education.

I will brag on my community college, Danville Area Community College. My daughter went there for 2 years, transferred to Illinois State. Every credit transferred, no problems, no hassles. Absolutely no difficulty whatsoever and she graduated on time from Illinois State. I... I think it was too bad that some 4-year universities have come to this Bill rather late. Clerk Mahoney: "House Bill 3513, a Bill for an Act concerning State Government. Third Reading of this House Bill."

Speaker Turner: "The Gentleman from Bond, Representative Stephens."

Stephens: "Thank you, Mr. Speaker. Ladies and Gentlemen, House Bill 3513 provides that the Department of Human Services shall make grants on a countywide or a regional basis to license treatment programs for the treatment and prevention of methamphetamine use and abuse. Provides that DHS shall conduct a community outreach and educational programs to alert the public of the dangers of methamphetamine use. This morning, Mr. Speaker and Ladies and Gentlemen, I... I announced a... a revenue Bill that will provide the funds to pay for this. I... I think it's important that we get involved in treatment and prevention in the use of methamphetamine. And we're taking it serious and we intend to find the dollars to provide for this service. Be glad to answer any questions."

Speaker Turner: "The Lady from Grundy, Representative Gordon, for what reason do you rise?"

Gordon: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He indicates he will."

Gordon: "Representative, and... and I'm not trying to be funny, in all honesty. But the last Bill that we just passed was

the best practices Act for... the best way to treat methamphetamine addiction and then this is for grants..."

Stephens: "Right."

Gordon: "...so that we can... we can treat the addiction. So, are we gonna..."

Stephens: "Basically, it..."

Gordon: "...pass the other one first or are we gonna start on this one and then change it next year? I guess I just... I don't understand."

Stephens: "Well, this Bill provides grants to providers for services to methamphetamine addicts and community outreach and education programs, so it's not just for treatment. The previous Bill, 3511, was to develop the best practices Act. The fact is that there are currently methamphetamine recovery programs, any one... any one of which is probably very valid. The first Bill is to try to determine if there is a one particular method... there may not be."

Gordon: "Right."

Stephens: "There may be..."

Gordon: "Right."

Stephens: "...a myriad of things that need to be done. Whatever the case is, that will stand on its own. But in the meantime, if there are treatment programs and there are treatment programs currently provided, that we... we would like to see them funded. Treatment has to... has to occur. Methamphetamine addiction, as you know, is... is spreading... spreading in an epidemic proportions. So, I don't think they're contradictory at all."

Gordon: "Well, I definitely appreciate both pieces of legislation. Thank you, Representative."

Stephens: "Thank you."

evaluation and treatment. The Amendment, the Floor Amendment, makes the Bill subject to appropriation. It would be very important and it would be a savings of money for the State of Illinois to have persons convicted of prostitution evaluated and treated. And I ask for your support in reference to this matter."

Speaker Turner: "The Gentleman from Cook, Representative Parke, for what reason do you rise?"

Parke: "Yes. Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Turner: "He... she indicates she will."

Parke: "It says in here that the Department of Human Services and the Department of Corrections are opposed to this on fiscal grounds. Are they still opposed?"

Younge: They're opposed on fiscal grounds, but I think that they think it's a very good idea. And that it would ultimately... ultimately save the State of Illinois money because of the absence of recidivism in reference to prostitution. And so I think that it... it... they're opposed because of the money that would cost, but it would be a cost savings in reference to rather than confining people in a penitentiary to have them treated."

Parke: "Mr. Speaker, I cannot hear the Lady. She's either gotta speak into the microphone or speak louder. Please, I did not hear you, Representative Younge, could you please say that again?"

Younge: "They're opposed because of the fiscal ramifications. The Department of Corrections sent in a fiscal note saying that the fiscal effect or impact would be minimal."

Parke: "Well, isn't this... isn't this really a decision that the court will make? Isn't it part of your legislation says that a judge is gonna make this decision? And are not... the judges are not subject to appropriation. If they say ya gotta do it, then we have to do it. Isn't that what your Bill says?"

Younge: "The Bill says that the person convicted will be referred and evaluated for drug addiction. This is a very good public health policy idea. It will decrease the recidivism, the number of people who go to prison for prostitution and it's a very good idea and it should be enacted into law."

Parke: "Representative, is this a behavior health consortium? Is that a neighborhood community agency or I mean, not an agency but a... usually a not for profit organization?"

Younge: "It's a community mental health facility."

Parke: "It's my understanding that the Department of Corrections already offers this kind of program. Are you aware of that?"

Younge: "I'm not aware that there is referral for evaluation and treatment. The... I talked with the officials of the Department of Corrections and they said that, subject to appropriation, they thought it was a good idea. They said that, subject to appropriations, they thought it was a very good idea."

Department of Corrections says that they do something similar to this. It will go before a judge. If the judge deems that these people are to be going to these community-based organizations, they have to do it. And we don't have the money to do it. In addition, right now, with the fee-for-service that is being slapped on all of our community-based organizations they're strapped as it is now. They don't have the manpower; they don't have the money. There are more people coming to them. All we're doing is exacerbating... exacerbating the issue of underfunded human service providers. Ladies and Gentlemen, I'm going to rise in opposition to the Lady's Bill. I know she's trying to do somethin' that she feels... and it makes sense. I mean, there's something here that, ya know, this is probably a good idea, but we don't have the money and it is not just gonna be subject to appropriation. If the courts deem that we have to do this, we're gonna have to do it whether we have the money or not, we're gonna have to do it. So, that's just gonna put a further strain on our community-based organizations and according to this fee-for-service basis that the Governor has foisted it upon our human service providers and not provide that additional revenue is a travesty that is going to melt down our human service providers throughout this state. This kind of Bill just makes it go faster because they're gonna be put more people in their offices and they don't have the money to provide for 'em nor do they have the personnel. So, I'm gonna respectfully rise in opposition to the Lady's Bill."

Ladies and Gentlemen of the House, I think all of you remember last week we had a conversation here on the House Floor with regard to a comment that Representative Eddy made about the picture that you see down in front of the 94th General Assembly. Well, ya know, I think we kinda protested out loud on the floor and Mr. Farmer had got the message. And I am pleased to announce, I guess, that he has reduced the price of the unframed picture to \$195 which only represents a 300 percent increase from the cost of the picture last year. Now, I just want you guys to think about that. Now, I know, like everybody else here knows, that in the course of a year the cost of everything can go up, but I would be hard pressed to come up with any good reason why the cost of that picture increased over still 300 percent from the cost last year. But I guess we should be happy that he did reduce it because based on the price of the picture last week it was over 600 percent of the cost from last year. So, I just want you guys to think about that when you're writing those \$195 checks for that picture when we only paid 65 for it last year. He got the message last week, so we'll wait and see what he comes back with next week. Mr. Farmer, we're still listening for your best offer."

House Bill 17(sic-1017) provides that any interference for the person making or completing a 9-1-1 phone call is a Class A misdemeanor regardless of threat of bodily iniger... injury to a person or damage to property. This Bill came to me from a young woman that I met in a daycare program where she was at home... She was 14 years old and she was at home with her parents in an abusive relationship and her father, when her mother would attempt to call the police to intervene in these situations where he was being abusive, he would threaten to beat her up. And the Bill simply would make it a Class A misdemeanor for someone to threaten bodily injury of someone who was attempting to make a 9-1-1 phone call. I'll be happy to answer any questions."

Ladies and Gentlemen, House Bill 2441 amends some criminal trespass laws to make it illegal for a person to present false documents or to falsely represent his or her identity... identity orally to someone that has authority to give permission to enter on certain property. It allows prosecutions for entering a building under false pretenses and exempts peace officers and other governmental officials who enter buildings or land in the performance of their official duties. This stems from a situation that occurred at a State Police building. Someone came in; they were supposed to be some sort of laborer on the property. They presented documentation to that effect and then they later found this person in the backroom looking at records. The state's attorney in that county didn't feel that there was a way to prosecute it. This is an initiative of the Illinois State Police. It... it closes a loophole and it's good policy. in Illinois that said you cannot remove a driver's license or... or suspend or revoke a license, driver's license, for a nonmotor vehicle offense. Did your staff... I don't remember it, but I know for years we used to say we had to be very careful because of that case. Has your staff mentioned anything about the suspension of a license for a nonmotor vehicle or nondriver's license offense?"

Flider: "No, Representative. That has not been discussed. And with regard to this specific legislation, it amends what's known as the graduated driver's license provision of the law. So, that, for example, a student must already be enrolled in a driver's education program in order to get their license at the age of 16. So, we believe it would be consistent with that provision of the law."

Black: "Then... then that... that raises the question, Representative. What if the student has, in fact, dropped out, is 30 days from his or her 18th birthday and is gainfully employed. Then we take away the license?"

Flider: "Well, the legislation does provide some discretion to the superintendent in order to determine unique circumstances."

Speaker Turner: "She indicates she will."

Black: "Representative, the Illinois Sheriffs' Association is in strong opposition to the Bill and I think I know why. Let me ask you a question. Current Illinois law requires that a 17-year-old be held in separate out... as I recall, the standard is out of sight and out of sound from adult inmates. Now... now, you're going to put a 17-year-old in a juvenile detention facility where they're going to come in complete contact with 12-year-olds. And that... that just doesn't seem to make a lot of sense to me. Why wouldn't we want to hold a 17-year-old in detention, the 17- or 16-year-old, in a detention that is separate from the adult population, out of sight and out of sound, but if it... if your Bill becomes law, then we'll put a 17-year-old, who may be charged with a felony, in a juvenile detention facility where they'll be in the general population with, the last time we changed this law, 12-year-olds. That just doesn't seem to make a whole lot of sense to me."

Collins: "Well, first of all, we're talking about 12- to 16-year-olds. The first thing is that Federal Law prohibits states from incarcerating juveniles in adult jails. If they're in... if they're... youth, when they're in adult jails, you're supposed to process them. You get 6 hours to

process the child and then transfer. There are only four counties in this state that does... that does this right now. DeWitt and Jasper are the largest counties. Schuyler only has two kids and Crawford had one kid. All we're saying is that, once the kids are processed, you get 6 hours to do that, then you transfer 'em over to a juvenile detention center, that way when they're detained, they can get the services... the different type of services that are most effective for juveniles and that's what we're sayin'. Now, the problem is, is that the sheriffs may be opposed because they may not feel like driving the extra couple of hours to the juvenile detention center. And it's unfair that juveniles would not get the services that they need because they're being housed in a one-room cell or whatever. Even if they're separated from population, it's just unfair."

Black: "You... you referenced a Federal Law that I'm not familiar with. What... what was the Federal Law that you had referenced?"

Collins: "Right. Well, for over 30 years Congress has prohibited states from incarcerating juveniles in adult jails. Under the Federal Juvenile Justice and Delinquency Prevention Act, states receiving federal prevention intervention dollars are prohibited from incarcerating juveniles in adult jails for longer than a few hours for the initial booking practice. So, we're just asking that the other four counties become... come into compliance. That's it."

Black: "We... we find no reference to that Federal Law in the Illinois Juvenile Court Act of 1987. When did this Federal Law..."

Collins: "It's under the Juvenile Justice Delinquency and Prevention Act. So, you can't get federal dollars if you incarcerate the kids for more than 6 hours during... after the booking. You have to transfer them to juvenile detention."

Black: "So, you're... you're telling me that if a county spent \$25 million to build a new correctional center and 16-year-old juveniles are housed on a separate floor with a separate entrance, a separate booking area, I'll... complete, no way, can they come into contact... they can't look or hear or be in contact with adult offenders, that the 16-year-old cannot be held in that approved correctional center without a loss of federal money?"

Collins: "First of all, there are four counties. And all we're sayin' is that they can... Now, I don't know... Are you talkin' about a particular county jail..."

Black: "Well, that..."

Collins: "...that has a separate juvenile detention facility?"

Black: "No, no. No not... not a separate building..."

Black: "In the County of Vermilion, we built a public safety building in which the juveniles were housed on a separate floor."

Collins: "Well, we're not talkin' about Vermilion County because that's a juvenile detention center where all your juveniles are. We're talkin' about counties, the four counties, that have... only house adults in the county jail. And we're talkin' about a county jail; we're not talkin' about a detention center. So, that wouldn't even apply to you because it's a separate facility and that's what we want. Once you book the kids, they go to a separate facility that's only for juveniles. And that's all we're sayin,' in all hundred and two counties it's only four counties that doesn't do it. So, there are 98 counties that are in compliance. And of the only two, Crawford only had one kid; Schuyler County only had two kids that did it. So, that one child... you only had one kid in the juvenile... in the adult jail. It's just as simple to take that kid to the juvenile detention center. It's one child."

Black: "How many juvenile detention facilities are there in the state? We have a hundred and two counties. I haven't checked in some time, but last time I checked, I think, there were only 25 juvenile detention facilities. So, if your Bill becomes law, every 16-year-old is going to have to be transferred by motor vehicle to a county that has such a facility."

Black: "No. I know they already do it..."

Collins: "Right. We already do it..."

Black: "...and I know what it costs."

Collins: "No... It doesn't cost anything. The point is, research demonstrates that juveniles in adult institutions are five times as likely to be sexually assaulted, twice as likely to be beaten by staff, 50 percent more likely to be attacked with a weapon and eight times as more likely to commit suicide as juveniles in juvenile facilities. This was a serious liability and risk for a county board. Twelve- to 16-year-olds are more appropriately, effectively a place with youth is smaller, therapeutic facility. Right now, it says there are plenty of vacant juvenile detention beds. The overcrowding crisis that led to the emergency measure is over. As of February 18, 2005, Illinois had 371 vacant detention beds running on the average of 30 percent empty. We're also sayin' that... as... as a result of Redeploy Illinois they're sending kids out to... to the community more and more so the kids aren't even goin' to the juvenile detention center. And what we're sayin' is that after you book the kid, just... if you're gonna hold the kid, transfer him to a juvenile facility. But the numbers are way down now, way down."

You don't have to call all around. The... there are 371 empty beds right now in the juvenile facilities. There's... there is plenty of room."

Black: "What... what happens if the county facility calls around to the counties that have a juvenile detention facility, and by the way, they're very expensive to build and very expensive to operate, and they can't find a vacancy in any of the juvenile detention facilities in the state. They're... they're told they are all full."

Collins: "That..."

Black: "...you may have a good Bill, but don't tell me something I've witnessed personally. There are times when there are no beds available. Now, what do you do with the juvenile?"

Collins: "Representative Black, that has not happened in a long time, that juvenile facilities have been full. Right now, today, we have 371 empty beds and as Illinois goes forward with the Juvenile Justice Reform Act and with Redeploy, we passed 2 years ago and has gone into effect and has been in effect 8 years, which the county has an incentive to reduce juveniles by 25 percent and that's what they're doin'. So, the kids that are goin' out... are going out into the communities now. They're not being processed and going to jail, only the serious offenses. And it's just not happening, so, if, in the event, that you get a juvenile and all of the juvenile detention centers, all 25, are full to capacity, then you must find a way in the county jail to separate that child from the rest of the facil... rest of the population."

There are more counties that do not have a juvenile detention facility than there are counties who have one. You said there were 371 beds available. On any given day, I would say there are more than 371 juveniles, unfortunately, in the system. I... I further don't understand why you want to put a 16-year-old juvenile in a juvenile detention facility where you're maybe holding a 12-year-old. It... it... That age group, to me, is not a good mix. I understand what you're trying to do. I'm not advocating locking up juveniles in adult facilities where adults are... are... are able to see or talk or interact with the juvenile. And I know of no county that... that allows that in any way, shape or form. I just rise to tell you that in a state as diverse as ours what... what seems to be and I don't... I don't argue with your Bill. I think your Bill is good public policy, but there are a number of counties who cannot afford to build a juvenile detention facility. Some have contracts with Kane County or other... Champaign County or other counties that have a juvenile facility, but the real problem comes in is when they call around and they can't find an available bed. I... Your Bill is well-intentioned. It's well-meaning. I... I don't have any problem with what you're doing, but there are cases when I think a 16-year-old could be held for 48 hours in, what used to be, an approved facility where they're out of sight and sound of adults. The 6-hour limit may be rather difficult for some counties to... to comply with. But, again, no quarrel with what you're trying to do. I'm just telling you... I'm just in... I'm just trying to say there are counties who have a very and will have a very difficult time complying with the Bill. Thank you."

Flowers: "Thank you... thank you, Mr. Speaker and Ladies and Gentlemen of the House. I rise in support of the Lady's legislation. And I would just like to say for informational purposes, maybe some of these children should not be locked up because some of the crimes that they are committing ordinarily would be probationable and if they're aren't any beds available, I think we should probably maybe take a serious look at what it is that we're doing to our future and what it is that we're doing to children that we're so quick to lock them up for, once again, which are crimes that are not necessarily serious enough for them to be locked up for the 6 hours or either the 48 hours. So, once again, I rise in support of the Lady's Bill. And would appreciate an 'aye' vote. Thank you."

Speaker Turner: "She indicates she will."

Lang: "Thank you. Representative, I'm not sure everyone on the floor has heard this whole debate, so could you explain what the Bill does once more, please?"

Collins: "Thank you, Mr... Representative Lang. This Bill simply says that when you hold a juvenile that you can only hold 'em in the county jail until you finish booking them. Once you've charged them, they can go to community service, they can be released, but you can't hold 'em in the county jail once you've booked them. Now, we have 102 counties in this state. Out of 102 counties, 98 of our counties already do this. And now, with Redeploy Illinois, we have begun to... to transfer kids and we have community service programs who have taken juveniles in, who working with the community in putting those kids there. We have less and less juveniles going into the juvenile system right now. Kids aren't being charged with the crimes or if they are, we're finding diversion programs for these children to be do it... to do."

Lang: "So, you say there are 98 counties that already do this?"

Collins: "That's correct."

Lang: "And do they do this just by local rule or by ordinance or what... by what method do they do it?"

if they keep kids in a... in a county jail. They have to be in a separate facility."

Collins: "No, they are not."

Lang: "And what are the four counties that don't do this today automatically?"

Collins: "DeWitt, Jasper, Schuyler and Crawford."

Lang: "And have any of those counties stepped forward to tell ya they object to the Bill?"

Collins: "No."

Lang: "So, we can put to rest the issue of the burden this puts on the counties because 98 are already doing it and the other four haven't complained to you about the Bill. Is that right?"

Collins: "That's correct."

Lang: "All right. Now, I notice that, at least according to my analysis, the Department of Human Services is a proponent of your Bill. Is that correct?"

Collins: "That's correct."

Lang: "All right. Now, generally speaking, they oppose all kinds of Bills. Is it their Bill? Is it their idea? Or did they just sign on to your Bill?"

community because we found that juveniles do better in the community."

Lang: "Is there a cost to this Bill that would... would burden the state taxpayers?"

Collins: "Well, it's the same cost. The juvenile detention centers are already there, the beds are already there, so we're already paying for it. So, there's no additional cost."

Lang: "And..."

Collins: "So, DOC says there is no physical(sic-fiscal) impact."

Lang: "Did I ask you a question or am I waiting for a response, I forget?"

Collins: "No, you asked me about the fiscal impact and DOC doesn't have an additional physical(sic-fiscal) impact."

Lang: "All right. I noticed that in your Bill there's a provision relative to minors and adults being in the... in the same vicinity. Can you tell us what you've done with this issue and why?"

Collins: "Well, what we've done with this issue is that history has shown that juveniles and adults should be separated and we're not talkin' about 17-year-olds. Right now, current law says that you're a juvenile until you're 16. So, if... if they're in the county jail then they are held in a separate facility at that point. Not a separate facility but a separate... a separate cage so that they're not in contact with the adults so that... for their safety reasons."

Collins: "No. This Bill says that they can't be housed in the county jail with adult inmates."

Lang: "They can be housed?"

Collins: "They cannot."

Lang: "They cannot be housed. So, the... the idea is to separate like a 12-year-old from a... from an adult in the county jail. Is that correct?"

Collins: "That's correct. That's correct."

Lang: "And..."

Collins: "But this does not..."

Lang: "...was that one of the issues... was that... Go ahead."

Collins: "No, this does not prohibit the county jail, if the juvenile detention centers were all full, this does not prohibit a county jail from housing that inmate... that juvenile there until at such time that there was a bed available in a juvenile detention center. So, say if all the jails were filled... I mean, all the juvenile detention centers were filled and you got a juvenile that came in. When the juve... is... you still would have to separate that juvenile in the county jail and then when a bed came available in a juvenile detention center, then transfer that child."

In fact, Emil Boucek was my seatmate for 2 years and I found him to be an extremely intelligent and hardworking Legislator one that all of us had asked would do the right kind of job and the right thing. He really was strong in the criminal justice system as you can tell by his background and his years of serving in the criminal justice system. And when he came to Springfield, he brought that experience here and worked hard in the law enforcement area. Also, believed strongly in property tax relief which, of course, we all deal with and work on today and paid a great deal of attention to it.

I kind... I really did enjoy sitting next to him, but one thing that I remember well was in those days we used to work until 3, 4 in the morning and sometimes break for dinner and you know, then come back and of course, frequently were a little rowdy when we came back after dinner. But when we would work sometimes through dinner, we'd order dinner out and Emil would order a big pizza and now, you gotta understand, at 3:00 in the morning when a pizza arrives this is a great event. And so, Emil had this pizza on his desk and I... without thinking, I reached over and grabbed a piece and stuffed it in my mouth and it was loaded with anchovies. I thought I was gonna die and Emil got the biggest kick out of that and just laughed his head off. He knew that I'd never reach over again and grab another piece of his pizza. But I... I saw him a couple of times since he left the Legislature in 1982 because of the cutback Amendment. Some of you may remember the cutback Amendment. That's what destroyed a lot of representative democracy in the state, I think. But what happened to Emil, he was caught in a district with five other Legislators at that time and he ended up running against another incumbent Republican and lost at that time and so, in 1982 he retired. But we kept in touch a little bit since then and the time that I knew him he, in fact, was enjoying retirement. Four daughters, two sons, twenty-two grandchildren and of course, eight great grandchildren. That's an amazing, amazing story of a great family man, a great Legislator and a good friend. Speaker Turner: "It's anybody with the number 6 and up. The Gentleman from Clinton, Representative Granberg, for what reason do you rise?"

Granberg: "Purpose of an announcement, Mr. Speaker. Where at... the Ag Committee is gonna meet very, very briefly, immediately upon adjournment, for Representative Moffitt. So, I would urge Members to get there. We can conclude the business."

Speaker Turner: "The Gentleman from Bond, Representative Stephens, for what reason do you rise?"

Stephens: "Thank you, Mr. Speaker. A point of personal privilege..."

Speaker Turner: "State your point."

Stephens: "...if I might. Ya know, we've stood on this General Assembly Floor on far too many occasions and talked about the bad news from... from the Persian Gulf and from Iraq and Afghanistan. I am happy to report to you that the First Calvary Division and in particular Alpha Company 1st of the
